COMMISSION INFORMATION

EUROPEAN AGRICULTURAL GUIDANCE AND GUARANTEE FUND

Granting of aid from the EAGGF, Guidance Section, for 1965

(66/431/EEC)

In accordance with Article 5 (2) of Regulation No 25 on the financing of the common agricultural policy and Articles 2 and 4 of the Financial Regulation concerning the EAGGF, an amount corresponding to one third of the expenditure provided for the Guarantee Section of the Fund is entered in the Community budget, Chapter LXXX, entitled 'Actions undertaken within the framework of the Guidance Section'. An amount of 16 617 000 units of account is entered in the budget for the 1966 financial year, representing one third of the amount fixed for expenditure by the Guarantee Section for the 1963/64 accounting period. To this amount is added a credit of 517 440 units of account carried forward from the 1965 financial year, so that a total amount of 17 134 440 units of account is available for granting aid from the Fund for 1965.

By 1 October 1964, 277 projects covered by 154 applications for aid were submitted to the Commission through the Member States in accordance with Article 20 of Regulation No 17/64/EEC. 21 of those applications were withdrawn by the applicants and one became purposeless.

Of the remaining 132 applications, 22 were considered to be ineligible for admission to the procedure for granting aid from the Fund, since it was found that they did not comply with the express provisions of Regulation No 17/64/EEC for one or other of the following reasons:

- The Member State in the territory of which the project was to be carried out was not contributing to its financing in accordance with the second subparagraph of Article 18 (1) of that Regulation;
- the approval of the Member State concerned was not given in accordance with Article 20 (3) of that Regulation;
- the agricultural products the marketing of which was the subject of the projects were not subject to the common organization of markets and therefore did not fulfil the condition laid down in Article 11 (2) in respect of the actions specified in Article 11 (1) (c) and (d) of that Regulation.

These findings have been communicated to the respective applicants and to the Member States concerned.

Having obtained the Opinion of the Standing Committee on Agricultural Structures the Commission decided not to admit for the granting of aid from the Fund projects which were the subject of seven out of the 110 applications considered to comply with the express provisions, six of those projects being already under way on the date when the applications were lodged with the Commission and one project not fulfilling the conditions of Article 14 and the first subparagraph of Article 18 (1) of Regulation No 17/64/EEC.

The decisions of the Commission to refuse aid were communicated to the Member States concerned and to the applicants.

The remaining 103 applications for aid represented a total 23 271 932 units of account.

The Commission having consulted the Fund Committee on the financial aspects and in particular on the finances available, and having obtained the Opinion of the Standing Committee on Agricultural Structures, accepted 97 applications for aid representing a total of 17 134 258 units of account. The projects which were the subject of those applications and of which a list is attached were those which seemed to it to be most in accordance with the Community's interests, bearing in mind:

- the priority laid down in Article 15 of Regulation No 17/64/EEC;
- the need to share out the aid from the Fund harmoniously within the Community.

In accordance with Article 21 of Regulation No 17/64/EEC, the Commission Decisions granting Fund aid for the projects indicated below were communicated to the Member States concerned and to the beneficiaries.

ANNEX

List of accepted projects

D/2/65	Construction of a fruit packing and storage undertaking at Tiengen (Baden-Württemberg)
D/3.1/65	Construction of a wholesale fruit market at Ailingen (Baden-Württemberg)
D/3.2/65	Extension of the wholesale dessert fruit market at Ravensburg (Baden-Württemberg)
D/3.3/65	Extension of the wholesale dessert fruit market at Heilbronn (Baden-Württemberg)
D/3.4/65	Enlargement of a fruit sorting room at Öhringen (Baden-Württemberg)
D/4/65	Afforestation, road building and measures to promote the use of pastures in some districts of the Black Forest (Baden-Württemberg)
D/6.1/65	Extension of a milk collecting station into a skimming plant at Falkenstein, Bavarian Forest (Bavaria)
D/6.2/65	Construction of a skimming plant at Hemau, High Palatinate (Bavaria)
D/7/65	Water supply to 11 communes in the Bavarian Forest (Bavaria)
D/9/65	Afforestation and farm road building in the Bavarian Rhön (Bavaria)
