COMMISSION INFORMATION

EUROPEAN AGRICULTURAL GUIDANCE AND GUARANTEE FUND

Granting of aid from the EAGGF, Guidance Section, for 1966

(67/519/EEC)

In accordance with Article 5 (2) of Regulation No 25 on the financing of the common agricultural policy and Articles 2 and 4 of the Financial Regulation concerning the EAGGF, an amount corresponding to one third of the expenditure provided for the Guarantee Section of the Fund is entered in the Community budget, Chapter LXXX, entitled 'Action undertaken within the framework of the Guidance Section'. An amount of 54 308 000 units of account is entered in the budget for the 1967 financial year, representing one third of the amount fixed for the expenditure by the Guarantee Section for the 1964/65 accounting period; it is, however, necessary to deduct an amount of 13 million units of account allocated to Italy by Decisions of the Council (eight million for olive oil, Regulation No 130/66/EEC, and five million as a contribution to repairing damage caused by flood disasters during the autumn of 1966, Regulation No 206/66/EEC) and to add an amount of 279 676 units of account carried forward from the 1966 financial year, so that a total amount of 41 587 676 units of account is available for granting aid from the Fund for 1966.

495 projects were submitted to the Commission up to 1 October 1965 through the Member States in accordance with Article 20 of Regulation No 17/64/EEC, 68 of which were withdrawn or became purposeless.

Of the 427 remaining applications for aid, 46 were considered to be ineligible for admission to the procedure for granting aid from the Fund, since they did not comply with the express provisions of Regulation No 17/64/EEC for one or other of the following reasons:

- the Member State in the territory of which the project was to be carried out had not approved the project in accordance with Article 20 (3) of that Regulation;
- the financial contribution to the project of the party benefiting was not the minimum of 30 % required by Article 18 (1) of that Regulation;
- the information contained in the application for aid was clearly insufficient and did not make it possible to examine whether the project complied with that Regulation;
- the agricultural products the marketing of which was the subject of the projects were not made subject to the common organization of markets and, therefore, did not fulfil the condition laid down in Article 11 (2) in respect of the actions specified in Article 11 (1) (c) and (d) of that Regulation.

These findings have been communicated to the respective applicants and to the Member States concerned.

As regards the 381 applications considered to comply with the express provisions, the Commission, after hearing the Opinion of the Standing Committee on Agricultural Structures, decided that aid from the Fund would not be granted for projects covered by 19 applications, 13 projects being already under way on the day on which the applications were lodged with the Commission and six projects not complying with the criteria in Article 14 of Regulation No 17/64/EEC.

The Decisions of the Commission to refuse aid were communicated to the Member States concerned and to the applicants.

The remaining 362 applications for aid represented a total of 72 935 125 units of account.

The Commission, having consulted the Fund Committee on the financial aspects and in particular on the finances available, and having obtained the Opinion of the Standing Committee on Agricultural Structures, accepted 254 applications for aid representing a total of 41 586 875 units of account.

The projects which were the subject of those applications and of which a list is attached were those which seemed to it to be most in accordance with the Community's interests, bearing in mind:

- the priority laid down in Article 15 of Regulation No 17/64/EEC;

– the need to share out the Fund aid harmoniously within the Community.

In accordance with Article 21 of Regulation 17/64/EEC, the Commission Decisions granting Fund aid for the projects indicated below were communicated to the Member States concerned and to the beneficiaries.
