# REGULATION (EC) No 396/2005 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

**of 23 February 2005**

**on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC**

**(Text with EEA relevance)**

## CHAPTER I

## SUBJECT MATTER, SCOPE AND DEFINITIONS

### *Article 1*

### Subject matter

This Regulation establishes, in accordance with the general principles laid down in Regulation (EC) No 178/2002, in particular the need to ensure a high level of consumer protection and harmonised Community provisions relating to maximum levels of pesticide residues in or on food and feed of plant and animal origin.

### *Article 2*

### Scope

1. This Regulation shall apply to products of plant and animal origin or parts thereof covered by Annex I to be used as fresh, processed and/or composite food or feed in or on which pesticide residues may be present.

2. This Regulation shall not apply to the products covered by Annex I where it may be established by appropriate evidence that they are intended for:

(a) the manufacture of products other than food or feed; or

(b) sowing or planting; or

(c) activities authorised by national law for the testing of active substances.

3. Maximum residue levels for pesticides set in accordance with this Regulation shall not apply to products covered by Annex I intended for export to third countries and treated before export, where it has been established by appropriate evidence that the third country of destination requires or agrees with that particular treatment in order to prevent the introduction of harmful organisms into its territory.

4. This Regulation shall apply without prejudice to Directives 98/8/EC ([1]), 2002/32/EC and Regulation (EEC) No 2377/90 ([2]).

([1]) Directive 98/8/EC of the European Parliament and of the Council of 16 February 1998 concerning the placing of biocidal products on the market (OJ L 123, 24.4.1998, p. 1). Directive as amended by Regulation (EC) No 1882/2003 (OJ L 284, 31.10.2003, p. 1).

([2]) Council Regulation (EEC) No 2377/90 of 26 June 1990 laying down a Community procedure for the establishment of maximum residue limits of veterinary medicinal products in foodstuffs of animal origin (OJ L 224, 18.8.1990, p. 1). Regulation as last amended by Commission Regulation (EC) No 1875/2004 (OJ L 326, 29.10.2004, p. 19).

▼B

*Article 3*

**Definitions**

1. For the purpose of this Regulation, the definitions in Regulation (EC) No 178/2002, and the definitions in Article 2, points 1 and 4 of Directive 91/414/EEC shall apply.

2. The following definitions shall also apply:

(a) ‘good agricultural practice’ (GAP) means the nationally recommended, authorised or registered safe use of plant protection products under actual conditions at any stage of production, storage, transport, distribution and processing of food and feed. It also implies the application, in conformity with Directive 91/414/EEC, of the principles of integrated pest control in a given climate zone, as well as using the minimum quantity of pesticides and setting MRLs/temporary MRLs at the lowest level which allows the desired effect to be obtained;

(b) ‘critical GAP’ means the GAP, where there is more than one GAP for an active substance/product combination, which gives rise to the highest acceptable level of pesticide residue in a treated crop and is the basis for establishing the MRL;

(c) ‘pesticide residues’ means residues, including active substances, metabolites and/or breakdown or reaction products of active substances currently or formerly used in plant protection products as defined in Article 2, point 1 of Directive 91/414/EEC, which are present in or on the products covered by Annex I to this Regulation, including in particular those which may arise as a result of use in plant protection, in veterinary medicine and as a biocide;

(d) ‘maximum residue level’ (MRL) means the upper legal level of a concentration for a pesticide residue in or on food or feed set in accordance with this Regulation, based on good agricultural practice and the lowest consumer exposure necessary to protect vulnerable consumers;

(e) ‘CXL’ means an MRL set by the Codex Alimentarius Commission;

(f) ‘limit of determination’ (LOD) means the validated lowest residue concentration which can be quantified and reported by routine monitoring with validated control methods;

(g) ‘import tolerance’ means an MRL set for imported products to meet the needs of international trade where:

— the use of the active substance in a plant protection product on a given product is not authorised in the Community for reasons other than public health reasons for the specific product and specific use; or

— a different level is appropriate because the existing Community MRL was set for reasons other than public health reasons for the specific product and specific use;

▼B

(h) ‘proficiency test’ means a comparative test in which several laboratories perform analyses on identical samples, allowing an evaluation of the quality of the analysis performed by each laboratory;

(i) ‘acute reference dose’ means the estimate of the amount of substance in food, expressed on a body weight basis, that can be ingested over a short period of time, usually during one day, without appreciable risk to the consumer on the basis of the data produced by appropriate studies and taking into account sensitive groups within the population (e.g. children and the unborn);

(j) ‘acceptable daily intake’ means the estimate of the amount of substances in food expressed on a body weight basis, that can be ingested daily over a lifetime, without appreciable risk to any consumer on the basis of all known facts at the time of evaluation, taking into account sensitive groups within the population (e.g. children and the unborn).

*Article 4*

**List of groups of products for which harmonised MRLs shall apply**

▼M4

1. The products, product groups and/or parts of products referred to in Article 2(1) to which harmonised MRLs shall apply shall be defined in and covered by Annex I. That measure, designed to amend non-essential elements of this Regulation, shall be adopted in accordance with the regulatory procedure with scrutiny referred to in Article 45(3). Annex I shall include all products for which MRLs are set, as well as the other products for which it is appropriate to apply harmonised MRLs, in particular in view of their relevance in the diet of consumers or in trade. Products shall be grouped in such a way that MRLs may as far as possible be set for a group of similar or related products.

▼B

2. Annex I shall be first established within three months from the entry into force of this Regulation and shall be revised when appropriate, in particular, at the request of a Member State.

*Article 5*

**Establishment of a list of active substances for which no MRLs are required**

▼M4

1. Active substances of plant protection products evaluated under Directive 91/414/EEC for which no MRLs are required shall be defined and listed in Annex IV to this Regulation, taking into account the uses of those active substances and the matters referred to in points (a), (c) and (d) of Article 14(2). Those measures, designed to amend non-essential elements of this Regulation, shall be adopted in accordance with the regulatory procedure with scrutiny referred to in Article 45(4).

▼B

2. Annex IV shall be first established within 12 months from the entry into force of this Regulation.

▼B

CHAPTER II

## PROCEDURE FOR APPLICATIONS FOR MRLS

*SECTION 1*

### *Submission of applications for MRLs*

*Article 6*

#### Applications

1. Where a Member State envisages granting an authorisation or a provisional authorisation for the use of a plant protection product in accordance with Directive 91/414/EEC, that Member State shall consider whether, as a result of such use, an existing MRL set out in Annex II or III to this Regulation needs to be modified, whether it is necessary to set a new MRL, or whether the active substance should be included in Annex IV. If necessary it shall require the party requesting the authorisation to submit an application in accordance with Article 7.

2. All parties demonstrating, through adequate evidence, a legitimate interest in health, including civil society organisations, as well as commercially interested parties such as manufacturers, growers, importers and producers of products covered by Annex I may also submit an application to a Member State in accordance with Article 7.

3. Where a Member State considers that the setting, modification or deletion of an MRL is necessary, that Member State may also compile and evaluate an application for setting, modifying, or deleting the MRL in accordance with Article 7.

4. Applications for import tolerances shall be submitted to rapporteur Member States designated pursuant to Directive 91/414/EEC or, if no such rapporteur has been designated, applications shall be made to Member States designated by the Commission in accordance with the procedure referred to in Article 45(2) of this Regulation at the request of the applicant. Such applications shall be made in accordance with Article 7 of this Regulation.

*Article 7*

#### Requirements relating to applications for MRLs

1. The applicant shall include in an application for an MRL the following particulars and documents:

(a) the name and address of the applicant;

(b) a presentation of the application dossier including:

(i) a summary of the application;

(ii) the main substantive arguments;

(iii) an index of the documentation;

(iv) a copy of the relevant GAP applying to the specific use of that active substance;

▼B

(c) a comprehensive overview of relevant concerns raised in the available scientific literature about the plant protection product and/or its residue;

(d) the data listed in Annexes II and III to Directive 91/414/EEC relating to data requirements for the setting of MRLs for pesticides including, where appropriate, toxicological data and data on routine analytical methods for use in control laboratories, as well as plant and animal metabolism data.

However, where relevant data are already publicly available, in particular when an active substance has already been evaluated under Directive 91/414/EEC or when a CXL exists and such data are submitted by the applicant, a Member State may also use such information in evaluating an application. In such cases, the evaluation report shall include a justification for using or not using such data.

2. The evaluating Member State may, where appropriate, request the applicant to provide supplementary information in addition to information required under paragraph 1 within a time limit specified by the Member State. In no event may this period exceed two years.

*Article 8*

**Evaluation of applications**

1. A Member State to which an application complying with Article 7 is submitted pursuant to Article 6 shall immediately forward a copy to the Authority and the Commission and draw up an evaluation report without undue delay.

▼M4

2. Applications shall be evaluated in accordance with the relevant provisions of the Uniform Principles for the Evaluation and Authorisation of Plant Protection Products set out in Annex VI to Directive 91/414/EEC or specific evaluation principles to be laid down in a Commission regulation. That regulation, designed to amend non-essential elements of this Regulation by supplementing it, shall be adopted in accordance with the regulatory procedure with scrutiny referred to in Article 45(3).

▼B

3. By way of derogation from paragraph 1 and by agreement between the Member States concerned, evaluation of the application may be carried out by the rapporteur Member State designated pursuant to Directive 91/414/EEC for that active substance.

4. Where a Member State encounters difficulties in evaluating an application or in order to avoid duplication of work, it may be decided in accordance with the procedure referred to in Article 45(2) which Member State shall evaluate particular applications.

*Article 9*

**Submission of evaluated applications to the Commission and the Authority**

1. After completion of the evaluation report, the Member State shall forward it to the Commission. The Commission shall without delay inform the Member States and forward the application, the evaluation report and the supporting dossier to the Authority.

▼B

2. The Authority shall acknowledge in writing receipt of the application to the applicant, the evaluating Member State and the Commission without delay. The acknowledgement shall state the date of receipt of the application and the accompanying documents.

*SECTION 2*

***Consideration of applications concerning MRLs by the authority***

*Article 10*

**The Authority's opinion on applications concerning MRLs**

1. The Authority shall assess the applications and the evaluation reports and give a reasoned opinion on, in particular, the risks to the consumer and where relevant to animals associated with the setting, modification or deletion of an MRL. That opinion shall include:

(a) an assessment of whether the analytical method for routine monitoring proposed in the application is appropriate for the intended control purposes;

(b) the anticipated LOD for the pesticide/product combination;

(c) an assessment of the risks of the acceptable daily intake or acute reference dose being exceeded as a result of the modification of the MRL; the contribution to the intake due to the residues in the product for which the MRLs was requested;

(d) any other element relevant to the risk assessment.

2. The Authority shall forward its reasoned opinion to the applicant, the Commission and the Member States. The reasoned opinion shall clearly define the basis for each conclusion reached.

3. Without prejudice to Article 39 of Regulation (EC) No 178/2002, the Authority shall make its reasoned opinion public.

*Article 11*

**Time limits for the Authority's opinion on applications concerning MRLs**

1. The Authority shall give its reasoned opinion as provided for in Article 10 as soon as possible and at the latest within three months from the date of receipt of the application.

In exceptional cases where more detailed evaluations need to be carried out, the time limit laid down in the first subparagraph may be extended to six months from the date of receipt of the valid application.

2. Where the Authority requests supplementary information, the time limit laid down in paragraph 1 shall be suspended until that information has been provided. Such suspensions are subject to Article 13.

▼B

*Article 12*

**Assessment of existing MRLs by the Authority**

1. The Authority shall, within a period of 12 months from the date of the inclusion or non-inclusion of an active substance in Annex I to Directive 91/414/EEC after the entry into force of this Regulation, submit a reasoned opinion based in particular on the relevant assessment report prepared under Directive 91/414/EEC to the Commission and the Member States on:

(a) existing MRLs for that active substance set out in Annex II or III to this Regulation;

(b) the necessity of setting new MRLs for that active substance, or its inclusion in Annex IV to this Regulation;

(c) specific processing factors as referred to in Article 20(2) of this Regulation that may be needed for that active substance;

(d) MRLs which the Commission may consider including in Annex II and/or Annex III to this Regulation and on those MRLs which may be deleted related to that active substance.

2. For substances included in Annex I to Directive 91/414/EEC before the entry into force of this Regulation, the reasoned opinion referred to in paragraph 1 of this Article shall be delivered within 12 months of the entry into force of this Regulation.

*Article 13*

**Administrative review**

Any decision taken under, or failure to exercise, the powers vested in the Authority by this Regulation may be reviewed by the Commission on its own initiative or in response to a request from a Member State or from any person directly and individually concerned.

For that purpose, a request shall be submitted to the Commission within two months after the day on which the party concerned became aware of the act or omission in question.

The Commission shall take a decision within two months requiring, if appropriate, the Authority to withdraw its decision or to remedy its failure to act within a set time-limit.

*SECTION 3*

***Setting, modifying or deletion of MRLs***

*Article 14*

**Decisions on applications concerning MRLs**

▼M4

1. Upon receipt of the opinion of the Authority and taking account of that opinion, one of the following shall be prepared by the Commission without delay and at the latest within three months:

(a) a regulation on the setting, modification or deletion of an MRL. That regulation, designed to amend non-essential elements of this Regulation, shall be adopted in accordance with the regulatory procedure with scrutiny referred to in Article 45(4). On imperative grounds of urgency, the Commission may have recourse to the urgency procedure referred to in Article 45(5) in order to ensure a high level of consumer protection;

▼M4

(b) a decision rejecting the application, which shall be adopted in accordance with the regulatory procedure referred to in Article 45(2).

▼B

2. With regard to the acts referred to in paragraph 1, account shall be taken of:

(a) the scientific and technical knowledge available;

(b) the possible presence of pesticide residues arising from sources other than current plant protection uses of active substances, and their known cumulative and synergistic effects, when the methods to assess such effects are available;

(c) the results of an assessment of any potential risks to consumers with a high intake and high vulnerability and, where appropriate, to animals;

(d) the results of any evaluations and decisions to modify the uses of plant protection products;

(e) a CXL or a GAP implemented in a third country for the legal use of an active substance in that country;

(f) other legitimate factors relevant to the matter under consideration.

3. The Commission may request at any time that supplementary information be provided by the applicant or by the Authority. The Commission shall make available any supplementary information received to the Member States and the Authority.

*Article 15*

**Inclusion of new or modified MRLs in Annexes II and III**

1. The Regulation referred in Article 14(1) shall:

(a) set new or modified MRLs and list them in Annex II to this Regulation where the active substances have been included in Annex I to Directive 91/414/EEC; or

(b) where the active substances have not been included in Annex I to Directive 91/414/EEC and where they are not included in Annex II to this Regulation, set or modify temporary MRLs and list them in Annex III to this Regulation; or

(c) in the cases mentioned in Article 16, set temporary MRLs and list them in Annex III to this Regulation.

▼M4

2. Where a temporary MRL is set as provided for in paragraph 1(b), it shall be deleted from Annex III by a regulation one year after the date of the inclusion or non-inclusion in Annex I to Directive 91/414/EEC of the active substance concerned. That regulation, designed to amend non-essential elements of this Regulation, shall be adopted in accordance with the regulatory procedure with scrutiny referred to in Article 45(4). On imperative grounds of urgency, the Commission may have recourse to the urgency procedure referred to in Article 45(5) in order to ensure a high level of consumer protection.

▼M4

However, where one or more Member States so request, the temporary MRL may be maintained for an additional year pending confirmation that any scientific studies necessary for supporting an application for setting a MRL have been undertaken. In cases where such confirmation is provided, the temporary MRL shall be maintained for a further two years, provided that no unacceptable safety concerns for consumers have been identified.

▼B

*Article 16*

**Procedure for setting temporary MRLs in certain circumstances**

1. The Regulation referred to in Article 14(1) may also set a temporary MRL to be included in Annex III in the following circumstances:

(a) in exceptional cases, in particular where pesticide residues may arise as a result of environmental or other contamination or from uses of plant protection products pursuant to Article 8(4) of Directive 91/414/EEC; or

(b) where the products concerned constitute a minor component of the diet of consumers, and do not constitute a major part of the diet of relevant subgroups, and, where relevant, of animals; or

(c) for honey; or

(d) for herbal infusions; or

(e) where essential uses of plant protection products have been identified by a Decision to delete an active substance from, or not to include an active substance in, Annex I to Directive 91/414/EEC; or

(f) where new products, product groups and/or parts of products have been included in Annex I, and one or more Member States so request, in order to allow any scientific studies necessary for supporting an MRL to be undertaken and evaluated, provided that no unacceptable safety concerns for the consumer have been identified.

2. The inclusion of temporary MRLs as referred to in paragraph 1 shall be based on the opinion of the Authority, monitoring data and an assessment demonstrating that there are no unacceptable risks to consumers or animals.

The continued validity of the temporary MRLs referred to in paragraphs 1(a), (b), (c) and (d) shall be reassessed at least once every 10 years and any such MRLs shall be modified or deleted as appropriate.

The MRLs referred to in paragraph 1(e) shall be reassessed at the expiry of the period for which the essential use was authorised. The MRLs referred to in paragraph 1(f) shall be reassessed when the scientific studies have been completed and evaluated, but no later than four years after their inclusion in Annex III.

▼B

*Article 17*

**Modifications of MRLs following revocation of authorisations of plant protection products**

Amendments to Annexes II or III needed to delete an MRL following the revocation of an existing authorisation for a plant protection product may be adopted without seeking the opinion of the Authority.

CHAPTER III

**MRLS APPLICABLE TO PRODUCTS OF PLANT AND ANIMAL ORIGIN**

▼M4

*Article 18*

**Compliance with MRLs**

1. The products covered by Annex I shall not contain, from the time they are placed on the market as food or feed, or fed to animals, any pesticide residue exceeding:

(a) the MRLs for those products set out in Annexes II and III;

(b) 0,01 mg/kg for those products for which no specific MRL is set out in Annexes II or III, or for active substances not listed in Annex IV unless different default values are fixed for an active substance while taking into account the routine analytical methods available. Such default values shall be listed in Annex V. That measure, designed to amend non-essential elements of this Regulation, shall be adopted in accordance with the regulatory procedure with scrutiny referred to in Article 45(4). On imperative grounds of urgency, the Commission may have recourse to the urgency procedure referred to in Article 45(5) in order to ensure a high level of consumer protection.

2. Member States may not prohibit or impede the placing on the market or the feeding to food-producing animals within their territories of the products covered by Annex I on the grounds that they contain pesticide residues provided that:

(a) such products comply with paragraph 1 and Article 20; or

(b) the active substance is listed in Annex IV.

3. By way of derogation from paragraph 1, Member States may authorise, further to a post-harvest treatment with a fumigant on their own territory, residue levels for an active substance which exceed the limits specified in Annexes II and III for a product covered by Annex I where the active substance/product combinations are listed in Annex VII provided that:

(a) such products are not intended for immediate consumption;

(b) appropriate controls are in place to ensure that such products cannot be made available to the end user or consumer, if they are supplied directly to the latter, until the residues no longer exceed the maximum levels specified in Annexes II or III;

(c) the other Member States and the Commission have been informed of the measures taken.

▼M4

Measures designed to amend non-essential elements of this Regulation and defining the active substance/product combinations listed in Annex VII shall be adopted in accordance with the regulatory procedure with scrutiny referred to in Article 45(3).

4. In exceptional circumstances, and in particular further to the use of plant protection products in accordance with Article 8(4) of Directive 91/414/EEC or pursuant to obligations set out in Directive 2000/29/EC ([1]), a Member State may authorise the placing on the market and/or the feeding to animals within its territory of treated food or feed not complying with paragraph 1, provided that such food or feed does not constitute an unacceptable risk. Such authorisations shall immediately be notified to the other Member States, the Commission and the Authority, together with an appropriate risk assessment for consideration without undue delay with a view to setting a temporary MRL for a specified period or taking any other necessary measure in relation to such products. Those measures, designed to amend non-essential elements of this Regulation by supplementing it, shall be adopted in accordance with the regulatory procedure with scrutiny referred to in Article 45(4). On imperative grounds of urgency, the Commission may have recourse to the urgency procedure referred to in Article 45(5) in order to ensure a high level of consumer protection.

▼B

*Article 19*

**Prohibition concerning processed and/or composite products**

The processing, and/or mixing for dilution purposes with the same or other products, of the products covered by Annex I not complying with Articles 18(1) or 20 with a view to placing them on the market as food or feed or feeding them to animals shall be prohibited.

*Article 20*

**MRLs applicable to processed and/or composite products**

1. Where MRLs are not set out in Annexes II or III for processed and/or composite food or feed, the MRLs applicable shall be those provided in Article 18(1) for the relevant product covered by Annex I, taking into account changes in the levels of pesticide residues caused by processing and/or mixing.

▼M4

2. Specific concentration or dilution factors for certain processing and/or mixing operations or for certain processed and/or composite products may be included in the list in Annex VI. That measure, designed to amend non-essential elements of this Regulation, shall be adopted in accordance with the regulatory procedure with scrutiny referred to in Article 45(3).

([1]) Council Directive 2000/29/EC of 8 May 2000 on protective measures against the introduction into the Community of organisms harmful to plants or plant products and against their spread within the Community (OJ L 169, 10.7.2000, p. 1). Directive as last amended by Commission Directive 2007/41/EC (OJ L 169, 29.6.2007, p. 51).

▼B

CHAPTER IV

## SPECIAL PROVISIONS RELATING TO THE INCORPORATION OF EXISTING MRLS INTO THIS REGULATION

*Article 21*

### First establishment of MRLs

▼M4

1. MRLs for products covered by Annex I shall be first established and listed in Annex II, incorporating the MRLs provided for under Directives 86/362/EEC, 86/363/EEC and 90/642/EEC, taking into account the criteria listed in Article 14(2) of this Regulation. Those measures, designed to amend non-essential elements of this Regulation, shall be adopted in accordance with the regulatory procedure with scrutiny referred to in Article 45(3).

▼B

2. Annex II shall be established within 12 months from the entry into force of this Regulation.

*Article 22*

### First establishment of temporary MRLs

▼M4

1. Temporary MRLs for active substances for which a decision on inclusion or non-inclusion in Annex I to Directive 91/414/EEC has not yet been taken shall be first established and listed in Annex III to this Regulation, unless already listed in Annex II, taking into account the information provided by the Member States, where relevant the reasoned opinion referred to in Article 24, the factors referred to in Article 14(2) and the following MRLs:

(a) remaining MRLs in the Annex to Directive 76/895/EEC; and

(b) hitherto unharmonised national MRLs.

Those measures, designed to amend non-essential elements of this Regulation, shall be adopted in accordance with the regulatory procedure with scrutiny referred to in Article 45(3).

▼B

2. Annex III shall be established within 12 months from the entry into force of this Regulation in accordance with Articles 23, 24 and 25.

*Article 23*

### Information to be provided by the Member States on national MRLs

Where an active substance is not yet included in Annex I to Directive 91/414/EEC and where a Member State has set, by the date of entry into force of Annex I to this Regulation at the latest, a national MRL for that active substance for a product covered by Annex I to this Regulation, or has decided that no MRL is required for that active substance, the Member State concerned shall notify the Commission, in a format and by a date to be established in accordance with the procedure referred to in Article 45(2), of the national MRL, or the fact that no MRL is required for an active substance, and where relevant and at the request of the Commission:

▼B

(a) the GAP;

(b) where the critical GAP is applied in the Member State and, where available, summary data on supervised trials and/or monitoring data;

(c) the acceptable daily intake and, if relevant, the acute reference dose used for the national risk assessment, as well as the outcome of the assessment.

*Article 24*

**Opinion of the Authority on data underlying national MRLs**

1. The Authority shall provide a reasoned opinion to the Commission on potential risks to consumer health arising from:

(a) temporary MRLs that may be included in Annex III;

(b) active substances that may be included in Annex IV.

2. In preparing the reasoned opinion referred to in paragraph 1, the Authority shall take into account the scientific and technical knowledge available, and in particular, information provided by the Member States as required by Article 23.

*Article 25*

**Setting of temporary MRLs**

Taking into account the opinion of the Authority, if such an opinion is necessary, temporary MRLs for active substances referred to in Article 23 may be set and listed in Annex III pursuant to Article 22(1) or, as appropriate, the active substance may be included in Annex IV pursuant to Article 5(1). Temporary MRLs shall be set at the lowest level that can be achieved in all Member States on the basis of good agricultural practice.

CHAPTER V

**OFFICIAL CONTROLS, REPORTS AND SANCTIONS**

*SECTION 1*

***Official controls of MRLs***

▼M115

———————

▼B

*Article 28*

**Methods of analysis**

▼M115

_____

▼B

3. All laboratories analysing samples for the official controls on pesticide residues shall participate in the Community proficiency tests for pesticide residues organised by the Commission.

*SECTION 2*

***Community control programme***

*Article 29*

**Community control programme**

1. The Commission shall prepare a coordinated multiannual Community control programme, identifying specific samples to be included in the national control programmes and taking into account problems that have been identified regarding compliance with the MRLs set out in this Regulation, with a view to assessing consumer exposure and the application of current legislation.

2. The Community control programme shall be adopted and updated every year in accordance with the procedure referred to in Article 45(2). The draft Community control programme shall be presented to the Committee referred to in Article 45(1) at least six months before the end of each calendar year.

*SECTION 3*

***National control programmes***

▼M115

_____

▼B

*SECTION 4*

***Information by the Member States and annual report***

*Article 31*

**Information by the Member States**

1. Member States shall submit the following information concerning the previous calendar year to the Commission, the Authority and the other Member States by 31 August each year:

(a) the results of the official controls provided for in Article 26(1);

▼B

(b) the LODs applied in the national control programmes referred to in Article 30 and under the Community control programme referred to in Article 29;

(c) details of the participation of the analytical laboratories in the Community proficiency tests referred to in Article 28(3) and other proficiency tests relevant to the pesticide-product combinations sampled in the national control programme;

(d) details of the accreditation status of the analytical laboratories involved in the controls referred to in point (a);

(e) where permitted by national legislation, details of enforcement measures taken.

2. Implementing measures relating to the submission of information by the Member States may be established in accordance with the procedure referred to in Article 45(2) after consultation with the Authority.

*Article 32*

**The Annual Report on Pesticide Residues**

1. On the basis of the information provided by the Member States under Article 31(1) the Authority shall draw up an Annual Report on pesticide residues.

2. The Authority shall include information on at least the following in the Annual Report:

(a) an analysis of the results of the controls provided for in Article 26(2);

(b) a statement of the possible reasons why the MRLs were exceeded, together with any appropriate observations regarding risk management options;

(c) an analysis of chronic and acute risks to the health of consumers from pesticide residues;

(d) an assessment of consumer exposure to pesticide residues based on the information provided under point (a) and any other relevant available information, including reports submitted under Directive 96/23/EC.

▼B

3. Where a Member State has not provided information in accordance with Article 31, the Authority may disregard the information relating to that Member State when compiling the Annual Report.

4. The format of the Annual Report may be decided in accordance with the procedure referred to in Article 45(2).

5. The Authority shall submit the Annual Report to the Commission by the last day of February each year.

6. The Annual Report may include an opinion on the pesticides to be covered in future programmes.

7. The Authority shall make public the Annual Report, as well as any comments by the Commission or Member States.

*Article 33*

**Submission of the Annual Report on Pesticide Residues to the Committee**

The Commission shall submit the Annual Report on Pesticide Residues to the Committee referred to in Article 45(1) without delay, for review and recommendations on any necessary measures to be taken regarding reported infringements of the MRLs set out in Annexes II and III.

*SECTION 5*

***Sanctions***

*Article 34*

**Sanctions**

The Member States shall lay down rules on the sanctions applicable to infringements of the provisions of this Regulation and shall take all measures necessary to ensure that they are implemented. The sanctions provided for must be effective, proportionate and dissuasive.

The Member States shall notify those rules and any subsequent amendment to the Commission without delay.

CHAPTER VI

**EMERGENCY MEASURES**

*Article 35*

**Emergency measures**

Articles 53 and 54 of Regulation (EC) No 178/2002 shall apply where, as a result of new information or of a reassessment of existing information, pesticide residues or MRLs covered by this Regulation may endanger human or animal health requiring immediate action. The time limit within which the Commission must take its decision shall be reduced to seven days in the case of fresh produce.

▼M60

———————

▼B

CHAPTER VIII

**COORDINATION OF APPLICATIONS FOR MRLS**

*Article 38*

**Designation of national authorities**

Each Member State shall designate one or more national authorities to coordinate cooperation with the Commission, the Authority, other Member States, manufacturers, producers and growers for the purposes of this Regulation. Where more than one authority is designated by a Member State, it shall indicate which of the designated authorities shall act as a contact point.

The national authorities may delegate tasks to other bodies.

Each Member State shall inform the Commission and the Authority of the names and addresses of the designated national authorities.

*Article 39*

**Coordination by the Authority of information on MRLs**

The Authority shall:

(a) coordinate with the rapporteur Member State designated in accordance with Directive 91/414/EEC for an active substance;

(b) coordinate with the Member States and the Commission regarding MRLs, in particular for the purpose of fulfilling the requirements of Article 41.

*Article 40*

**Information to be submitted by the Member States**

Member States shall submit to the Authority, at its request, any available information necessary for the assessment of the safety of MRLs.

*Article 41*

**Database of the Authority on MRLs**

Without prejudice to the applicable provisions of Community and national law on access to documents, the Authority shall develop and maintain a database, accessible to the Commission and to the competent authorities of the Member States, containing the relevant scientific information and GAPs relating to the MRLs, the active substances and the processing factors set out in Annexes II, III, IV and VII. In particular it shall contain dietary intake assessments, processing factors and toxicological endpoints.

▼B

*Article 42*

**Member States and fees**

1. Member States may recover the costs of work associated with setting, modifying or deleting MRLs, or with any other work arising from obligations under this Regulation, by means of a fee or charge.

2. Member States shall ensure that the fee or charge referred to in paragraph 1:

(a) is established in a transparent manner; and

(b) corresponds to the actual cost of the work involved.

It may include a scale of fixed charges based on average costs for the work referred to in paragraph 1.

CHAPTER IX

**IMPLEMENTATION**

*Article 43*

**Scientific opinion of the Authority**

The Commission or the Member States may request from the Authority a scientific opinion on any measure related to the assessment of risks under this Regulation. The Commission may specify the time limit within which such an opinion shall be provided.

*Article 44*

**Procedure for the adoption of the Authority's opinions**

1. When the Authority's opinions pursuant to this Regulation require only scientific or technical work involving the application of well-established scientific or technical principles they may, unless the Commission or a Member State objects, be issued by the Authority without consulting the scientific committee or the scientific panels mentioned in Article 28 of Regulation (EC) No 178/2002.

2. The implementing rules pursuant to Article 29(6)(a) of Regulation (EC) No 178/2002 shall specify the cases in which paragraph 1 of this Article shall apply.

▼M4

*Article 45*

**Committee procedure**

1. The Commission shall be assisted by the Standing Committee on the Food Chain and Animal Health established by Article 58 of Regulation (EC) No 178/2002.

▼M4

2. Where reference is made to this paragraph, Articles 5 and 7 of Decision 1999/468/EC shall apply, having regard to the provisions of Article 8 thereof.

The period laid down in Article 5(6) of Decision 1999/468/EC shall be set at three months.

3. Where reference is made to this paragraph, Article 5a(1) to (4) and Article 7 of Decision 1999/468/EC shall apply, having regard to the provisions of Article 8 thereof.

4. Where reference is made to this paragraph, Article 5a(1) to (4) and (5)(b), and Article 7 of Decision 1999/468/EC shall apply, having regard to the provisions of Article 8 thereof.

The time limits laid down in Article 5a(3)(c) and (4)(b) and (e) of Decision 1999/468/EC shall be set at two months, one month and two months respectively.

5. Where reference is made to this paragraph, Article 5a(1), (2), (4) and (6) and Article 7 of Decision 1999/468/EC shall apply, having regard to the provisions of Article 8 thereof.

*Article 46*

**Implementing measures**

1. Implementing measures to ensure the uniform application of this Regulation, technical guidance documents to assist in its application and detailed rules concerning the scientific data required for the setting of MRLs shall be established or may be amended in accordance with the regulatory procedure referred to in Article 45(2), taking into account, where appropriate, the opinion of the Authority.

2. Measures designed to amend non-essential elements of this Regulation and relating to the establishment or amendment of the dates referred to in Article 23, Article 29(2), Article 30(2), Article 31(1) and Article 32(5) shall be adopted in accordance with the regulatory procedure with scrutiny referred to in Article 45(3), taking into account, where appropriate, the opinion of the Authority.

▼B

*Article 47*

**Report on implementation of this Regulation**

Not later than 10 years after the entry into force of this Regulation, the Commission shall forward to the European Parliament and to the Council a report on its implementation and any appropriate proposals.

▼B

CHAPTER X

**FINAL PROVISIONS**

*Article 48*

**Repeal and adaptation of legislation**

1. Directives 76/895/EEC, 86/362/EEC, 86/363/EEC and 90/642/EEC are hereby repealed with effect from the date referred to in the second paragraph of Article 50.

2. Article 4(1)(f) of Directive 91/414/EEC shall be replaced by the following:

‘(f) where appropriate, the MRLs for the agricultural products affected by the use referred to in the authorisation have been set or modified in accordance with Regulation (EC) No 396/2005 (*)’

(*) OJ L 70, 16.3.2005, p. 1.

▼M4

*Article 49*

**Transitional measures**

1. The requirements of Chapter III shall not apply to products lawfully produced or imported into the Community before the date referred to in the second paragraph of Article 50.

However, in order to ensure a high level of consumer protection, appropriate measures concerning those products may be taken. Those measures, designed to amend non-essential elements of this Regulation by supplementing it, shall be adopted in accordance with the regulatory procedure with scrutiny referred to in Article 45(5).

2. Where necessary to allow for the normal marketing, processing and consumption of products, further transitional measures may be laid down for the implementation of certain MRLs provided for in Articles 15, 16, 21, 22, and 25. Those measures, designed to amend non-essential elements of this Regulation by supplementing it, and without prejudice to the obligation to ensure a high level of consumer protection, shall be adopted in accordance with the regulatory procedure with scrutiny referred to in Article 45(4).

▼B

*Article 50*

**Entry into force**

This Regulation shall enter into force on the twentieth day following its publication in the *Official Journal of the European Union*.

Chapters II, III and V shall apply as from six months from the publication of the last of the Regulations establishing Annexes I, II, III and IV.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

▼M129

*ANNEX I*

|---|---|---|---|---|---|
| **1200000** | **PRODUCTS OR PART OF PRODUCTS EXCLUSIVELY USED FOR ANIMAL FEED PRODUCTION** ([8]) | | | | |
| **1300000** | **PROCESSED FOOD PRODUCTS** ([9]) | | | | |

N.A. Not applicable.

([1]) MRLs do not apply to products or part of products that by their characteristics and nature are used exclusively as ingredients of animal feed, until separate MRLs are set in the specific category 1200000.

([2]) The term 'Others' covers any other product not explicitly mentioned under the rest of the codes within the same group or subgroup, in the columns 'Main product of the group or subgroup' of Part A and 'Other products to which the same MRLs apply' of Part B.

([3]) Kernels are defined as whole grains including the bran.

([4]) Kernels are defined as whole grains including the bran. In line with the definition agreed in the CCPR 2016 meeting, for the species and varieties in which husks cannot be (fully) removed by threshing (e.g. barley, oats, spelt, buckwheat, certain pseudocereals), the part of the product to which MRLs apply is 'kernel with remaining (traces of) husks'.

([5]) In all cases the MRL values are expressed as mg/kg of raw milk. Where the residue definition is marked as fat soluble (by letter F) the MRL is based on raw cow milk with a fat content of 4 % by weight; for raw milk of other species the MRL value shall be adjusted proportionally according to the fat content of the raw milk of that species.

([6]) In all cases the MRL values are expressed as mg/kg of eggs. Where the residue definition is marked as fat soluble (by letter F) the MRL is based on hen eggs with a fat content of 10 % by weight; for eggs of other species the MRL value shall be adjusted proportionally according to the fat content of the eggs of that species, if the fat content is higher than 10 % by weight.

([7]) No MRLs are applicable to other apiculture products until individual products have been identified and listed within this group.

([8]) No MRLs are applicable until individual products have been identified and listed within this category.

([9]) No MRLs are applicable until individual products have been identified and listed within this category. Provisions of the article 20 of this regulation apply.

([10]) As from 1 January 2020, the applicable maximum residue level for ginger (*Zingiber officinale*) in the spice group (code 0840020) is the one set for ginger roots (*Zingiber officinale*) in the Part B of the Annex 1 (code 0213040-006, equal to the one of horseradish (*Armoracia rusticana*) code 0213040), taking into account changes in the levels by processing (drying), according to Art. 20 (1) of Regulation (EC) No 396/2005.

([11]) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040), taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

N.A. Not applicable.

([1]) MRLs do not apply to products or part of products that by their characteristics and nature are used exclusively as ingredients of animal feed, until separate MRLs are set in the specific category 1200000.

([2]) The part '*except soyabeans/edamame*' shall apply as from 1 January 2020.

►M176 ([3]) MRLs shall apply to radish leaves as from 1 January 2025. ◄

*ANNEX II*

**MRLs formerly defined under Directives 86/362/EEC, 86/363/EEC and 90/642/EEC, referred to in Article 21(1)**

*Pesticide residues and maximum residue levels (mg/kg)*
