NOTES FOR THE COMPLETION OF MODEL ANIMAL HEALTH CERTIFICATES, OFFICIAL CERTIFICATES AND ANIMAL HEALTH/OFFICIAL CERTIFICATES FOR MOVEMENTS OF ANIMALS AND PRODUCTS BETWEEN MEMBER STATES OR WITHIN THE UNION

General

To positively select any option, please tick or mark the relevant box with a cross (x).

Unless otherwise specified or established by Union legislation, all entries or boxes apply to the model animal health certificate, official certificate and animal health/official certificate in Chapter 1.

Paper copies of an electronic certificate shall bear a unique machine-readable optical label which hyperlinks to the electronic version.

Only one of the options may be selected in boxes I.18 and I.20.

Where a box allows one or more options to be selected, only the selected option(s) will be displayed in the electronic version of the certificate.

Where a box is not compulsory, its content shall be strike-through.

PART I - DESCRIPTION OF CONSIGNMENT

Box	Description					
I.1	Consignor					
	Indicate the name and address, country and ISO country code (1) of the natural or legal person dispatching the consignment.					
1.2	IMSOC reference					
	This is the unique alphanumeric code assigned by the IMSOC. Repeated in boxes II.a and III.2					
I. 2a	Local reference					
	Indicate the unique alphanumeric code the competent authority may assign. Repeated in boxes II.b and III.2a					
I.3	Central competent authority					
	Indicate the name of the central competent authority in the country issuing the certificate.					
I.4	Local competent authority					
	Indicate the name of the local competent authority in the country issuing the certificate.					
I.5	Consignee					
	Indicate the name and address, country and ISO country code of the natural or legal person to whom the consignment is intended in the country of destination.					
	-					

I.6	Operator conducting assembly operations independently of an establishment
	Concerns operators conducting assembly operations for kept ungulates and poultry, independently of an establishment, as referred to in Article 90 of Regulation (EU) 2016/429 of the European Parliament and of the Council (2).
	Indicate the registration number and name of the registered operator.
I.7	Country of origin
	Indicate the name and ISO country code of the country from which the animals or products (germinal products, products of animal origin and animal by-products) originate.
I.8	Region of origin
	Where relevant, for the movement of animals or products that are affected by regionalisation measures in accordance with Union legislation, indicate the code of the approved regions or zones as indicated in the Official Journal of the European Union, or the name of compartments for aquatic animal diseases as listed on http://ec.europa.eu/food/animal/liveanimals/aquaculture/index_en.htm
1.9	Country of destination
	Indicate the name and ISO country code of the country to which the animals or products are destined.
I.10	Region of destination
	See box I.8
I.11	Place of dispatch
	Indicate the name and address, country and ISO country code of the establishment(s), or where relevant other place(s), from where the animals or the products come from. Where applicable, also indicate the registration or approval number of the establishment(s).
	For animals: indicate the establishment where animals are regularly kept or where they are assembled.
	For semen, oocytes or embryos intended for artificial reproduction: indicate as appropriate semen collection centre, embryo collection or production team, germinal product processing establishment, germinal product storage centre or confined establishment. In the case of semen of ovine and caprine animals, the place of dispatch may be the establishment keeping donor animals.
	For other products: any unit of a company in the food or animal by-product sector. Only the establishment shipping the products is to be named.
I.12	Place of destination
	Indicate the name and address, country and ISO country code of the establishment, or where relevant another place, where animals or products are being delivered for final unloading. Where applicable, also indicate the registration or approval number of the establishment of destination.

I.13 Place of loading For animals only: indicate the name and address of the place where the animals are loaded in the means of transport, and in the case they are assembled beforehand, the name and address of the establishment approved for assembly operations and its approval number. For products: indicate the name, address and category (for example, establishment, port or airport) of the final place where the products are to be loaded in the means of transport. I.14 Date and time of departure Indicate the date and, when required, time, when animals or products are scheduled to leave the place of loading. L15 Means of transport Select one or more of the following means of transport for animals or products leaving the country of dispatch, and indicate its (their) identification(s): aircraft (indicate the flight number); vessel (indicate the vessel name and number. In the case of livestock vessels, indicate the unique number of the certificate of approval); railway (indicate the train identity and wagon number); road vehicle (indicate the registration number plate with trailer number plate, if applicable. In the case of road vehicle used for long journeys, indicate also the unique number of the certificate of approval). other (means of transport other than those mentioned in point (n) of Article 2 of Council Regulation (EC) No 1/2005 (3)) In the case of a ferry, tick 'vessel' and identify the road vehicle(s) with registration number (with trailer number, if applicable), in addition to the name and number of the scheduled ferry. I.16 Transporter This box applies only to animals and products where this is required by Union legislation. Indicate the name, address, country and ISO country code of the natural or legal person(s) in charge of the transport. Indicate the registration or authorisation number where applicable. I.17 Accompanying documents Indicate the type of document: for example CITES permit in accordance with Article 9 of Council Regulation (EC) No 338/ 97 (4), permit for invasive alien species (IAS) in accordance with Article 8(1) and (2) of Regulation (EU) No 1143/2014 of the European Parliament and of the Council (5), declarations or other documents including of a commercial nature. Indicate the unique code of accompanying documents and country of issue.

Commercial document references: indicate for example the airway bill number, the bill of lading number or the commercial number of the train or road vehicle.

For products (products of animal origin and animal by-products): indicate the commercial document reference where this is required by Union legislation.

For semen, oocytes or embryos intended for artificial reproduction dispatched from germinal product processing establishments and germinal products storage centres: indicate the reference of the initial official document(s) or certificate(s) that accompanied semen, oocytes and/or embryos of this consignment to those germinal product processing establishments and germinal products storage centres from:

- the semen collection centre where the semen was collected and/or
- the embryo collection or production team collecting or producing the oocytes or embryos, and/or
- the germinal product processing establishment where semen, oocytes or embryos were processed and stored, and/or
- the germinal product storage centre where the semen, oocytes or embryos were stored.

For dogs, cats and ferrets, and where applicable for equidae: indicate the passport number.

For animals of protected species: indicate the CITES permit number.

For kept ungulates dispatched from an establishment approved for assembly operations: indicate the serial number(s) of the official document(s) and/or the certificate(s) based on which the certificate for this consignment is issued.

I.18 Transport conditions

Indicate the category of required temperature during the transport of products (ambient, chilled, frozen).

This box does not apply to animals.

I.19 Container number/Seal number

Where applicable, indicate the container number and seal number (more than one possible).

The container number must be provided if the goods are transported in closed containers.

Only the official seal number must be stated. An official seal number applies if a seal is affixed to the container, truck or rail wagon under the supervision of the competent authority issuing the certificate.

I.20 Certified as or for

Select the purpose of the movement of animals, the intended use of goods or the category as specified in the relevant Union legislation:

Organic fertilisers and soil improvers: concerns certain animal by-products or derived products as referred to in Regulation (EC) No 1069/2009 of the European Parliament and of the Council (6).

Technical use: animal by-products or derived products unfit for human or animal consumption, as referred to in Article 36 of Regulation (EC) No 1069/2009.

Exhibition: concerns animals intended for an exhibition and sporting, cultural or similar events in accordance with Union legislation.

Products for human consumption: concerns only products of animal origin intended for human consumption for which a certificate is required by Union legislation.

Further processing: concerns products that have to be further processed before being placed on the market as well as live aquatic animals and products of animal origin from aquatic animals other than live aquatic animals, which are destined for a disease control aquatic food establishment as defined in Article 4(52) of Regulation (EU) 2016/429.

Live aquatic animals for human consumption: aquatic animals intended for direct human consumption i.e. aquatic animals, which are delivered to the final consumer live or consumed live.

Confined establishment: as defined in Article 4(48) of Regulation (EU) 2016/429.

Quarantine or similar establishment: as provided for in Article 14 of Commission Delegated Regulation (EU) 2019/2035 (7) as regards terrestrial animals and in Article 15 or Article 16 of Commission Delegated Regulation (EU) 2020/691 (8) as regards aquaculture animals.

Travelling circus/Animal acts: as defined in respectively Article 2(34) and (35) of Delegated Regulation (EU) 2019/2035.

Release into the wild: concerns only live animals, which are to be released into the wild at the place of destination.

Registered equine animal: as defined in Article 2(30) of Delegated Regulation (EU) 2019/2035.

Further keeping: animals intended for establishments keeping live animals including for research purposes or for pet keepers, unless a more specific purpose or category from I.20 applies to them (e.g. quarantine, confined establishments etc.). It also includes animals, which are intended to restock game supplies or to be released into the wild, if those are intended to pass through an establishment before being released.

Purification centre: as defined in Article 2(2) of Delegated Regulation (EU) 2020/691.

Dispatch centre: as defined in Article 2(3) of Delegated Regulation (EU) 2020/691.

Relaying area: as defined in Article 2(4) of Delegated Regulation (EU) 2020/691.

Ornamental aquaculture establishment: as provided for in Article 17 or Article 18 of Delegated Regulation (EU) 2020/691.

Slaughter: for animals destined for a slaughterhouse, either directly or via an establishment approved for assembly operations.

Germinal products: as defined in Article 4(28) of Regulation (EU) 2016/429 Event or activity near borders: concerns movements of kept terrestrial animals between Member States in accordance with Article 139 of Regulation (EU) 2016/429 where such movements are for: — recreational use near borders: exhibitions, and sporting, cultural and similar events organised near borders; grazing of kept terrestrial animals in grazing areas shared between Member States: work done by kept terrestrial animals near borders of Member States. Other: intended for purposes not listed elsewhere in this classification, including aquatic animals intended for fishing baits. I.21 For transit through a third country Indicate the name and ISO country code of the transited third country in the case of road transport. Select the border control post of exit or indicate the name of the local authority of the place in which the exit point is situated. Select the border control post of entry into the Union. 1.22 For transit through Member States Indicate the name and ISO country code of the transited Member State(s) in the case of road transport. I.23 For export Indicate the name and ISO country code of the third country of destination and select the border control post of exit or indicate the name of the local authority of the place in which the exit point is situated. I.24 Estimated journey time This box only applies to animals falling within the scope of Regulation (EC) No 1/2005 and refers to the expected duration of the intended journey declared by the transporter in the transport documentation in accordance with Article 4(1)(e) thereof. The information entered in this box shall correspond to the total expected duration declared in Section 1 of the planning of the journey log set out in Annex II to that Regulation, in the case of domestic equidae other than registered equidae and domestic animals of bovine, ovine, caprine and porcine species subject to long journeys between Member States and with third countries (as defined in point (m) of Article 2 of that Regulation).

I.25	Journey log						
	This box only applies to domestic equidae other than registered equidae and domestic animals of bovine, ovine, caprine and porcine species subject to long journeys between Member States and with third countries, as defined in point (m) of Article 2 of Regulation (EC) No 1/2005.						
	By ticking 'yes', the IMSOC will automatically generate the journey log to be completed and submitted by the organizer of the journey in accordance with Annex II to that Regulation.						
I.26	Total number of packages						
	Indicate the total number and type of packages in the consignment, where appropriate.						
	For animals: the number of boxes, cages, containers, tanks, hives or stalls, in which the animals are being transported.						
	For semen, oocytes and embryos intended for artificial reproduction: the number of containers.						
	For products: the number of packages.						
	In the case of bulk consignments, this box is optional.						
I.27	Total quantity						
	For terrestrial animals or germinal products: indicate as appropriate the total number of heads, hatching eggs or straws expressed as units.						
	For aquatic animals: indicate as appropriate, the total number of animals, eggs or larvae expressed as units.						
1.28	Total net weight/gross weight (kg)						
	The total net weight is the mass of the animals or goods themselves, without immediate containers or any packaging. It is automatically calculated by the IMSOC on the basis of the information entered in box I.30.						
	The declared net weight of glazed food shall be exclusive of the glaze.						
	Indicate the total gross weight, i.e. the aggregate mass of the animals or goods, plus immediate containers and all their packaging, but excluding transport containers and other transport equipment.						
I.29	Total space foreseen for the consignment (in m ²)						
	This box applies only to animals falling within the scope of Regulation (EC) No 1/2005.						
	Space allowances during transport shall at least comply with the figures laid down, in respect of the animals and the means of transport referred to, in Chapter VII of Annex I to Regulation (EC) No 1/2005.						
	The information entered in this box shall correspond to the total space foreseen for the consignment declared in Section 1 of the planning of the journey log set out in Annex II to Regulation (EC) No 1/2005, in the case of domestic equidae other than registered equidae and domestic animals of bovine, ovine, caprine and porcine species subject to long journeys between Member States and with third countries (as defined in point (m) of Article 2 of that Regulation).						

I.30 Description of consignment

State any specific requirements relating to the animals or to the nature/processing of the products as defined in the relevant Union legislation.

For animals: indicate the species, category, identification method, identification number, age, sex, quantity or net weight, and test. For honeybees and bumble bees, indicate either of the following: queens with maximum 20 attendants, colonies with brood or other. For aquatic animals, indicate the number, volume or net weight, as appropriate to their life stage.

For semen, oocytes or embryos intended for artificial reproduction: indicate

- the type (semen, in vivo derived embryos, in vivo derived oocytes, in vitro produced embryos or micro manipulated embryos);
- the collection or production date;
- the approval number of the establishment of collection or production (semen collection centre, embryo collection or production team, germinal product processing establishment, germinal product storage centre or confined establishment). In the case of semen of ovine and caprine animals collected at their establishment of origin, indicate the registration number of that establishment;
- identification mark on the straw or other package;
- the quantity;
- the species, the subspecies (for animals from confined establishments, if needed) and identification number of the donor animal(s).

For products: indicate the species, types of products, type of treatment, approval or registration number of establishments together with ISO country code (slaughterhouse, processing plant, cold store, collection centre), number of packages, type of packaging, batch number, net weight.

Species: indicate the scientific name or as defined in accordance with Union legislation.

Type of packaging: identify the type of packaging according to the definition given in Recommendation No 21 (9) of UN/CEFACT (United Nations Centre for Trade Facilitation and Electronic Business).

PART II - CERTIFICATION

Box	Description						
	European Union						
	This box refers to the issuing countries.						
	Certificate model						
	This box refers to the specific title of each model of certificate.						

II.	Health information					
	This box refers to the specific Union health requirements applicable to the animal species or to the nature of the products moved between Member States or within the Union.					
II.a	IMSOC reference					
	This is the unique alphanumeric code indicated in box I.2.					
II.b	Local reference					
	This is the unique alphanumeric code indicated in box I.2a.					
	Certifying officer					
	This box refers to the signature of the certifying officer as defined in point (26) of Article 3 of Regulation (EU) 2017/625 of the European Parliament and of the Council (10).					
	Indicate the name in capital letters, qualification and title, where applicable, of the signatory, and name and code of the control unit, original stamp of the competent authority the signatory is attached to and date of signature.					

PART III - CONTROLS

Box

	-					
III.1	Date of official controls					
	Indicate the date when the official veterinarian as defined in point (32) of Article 3 of Regulation (EU) 2017/625 has performed the official controls on the consignment.					
III.2	IMSOC reference					
	This is the unique alphanumeric code indicated in box I.2.					
III.2a	Local reference					
	This is the unique alphanumeric code indicated in box I.2.a.					
III.3	Documentary check					
	This is the examination of the certificates, official attestations and other documents including documents of commercial nature, which are required to accompany the consignment, in order to verify compliance with Union legislation, including the additional animal health guarantees for Category C diseases as defined in point (3) of Article 1 of Commission Implementing Regulation (EU) 2018/1882 (11). This also includes verification of compliance with national measures as relevant in accordance with Article 226 of Regulation (EU) 2016/429. Non-compliance with national measures means that the consignment is not satisfactory.					
	Tick 'yes' or 'no' as appropriate.					

Description

III.4	Identity check
	This is a visual inspection to verify that the content and the labelling of the consignment, including the marks on animals, seals and means of transport, corresponds to the information provided in the certificate and other documents accompanying it. Tick 'yes' or 'no' as appropriate.
	, II I
III.5	Physical check
	This refers to a check on animals or products and as appropriate, a check on packaging, the means of transport, labelling and temperature, the sampling for analysis, testing or diagnosis and any other check necessary to verify compliance with applicable rules.
	Tick 'yes' or 'no' as appropriate.
	State the number of animals checked.
III.6	Laboratory test
	Tick 'yes' if a test has been performed.
	Tested for: select the category of substance or pathogen for which a laboratory test has been carried out.
	 tick 'random' where the consignment is not detained pending a test result.
	 tick 'suspicion' where animals or products are suspected of not complying with Union legislation (including cases where animals are suspected of having a disease or show signs of disease), and are detained pending a result.
	 tick 'emergency measures' where animals or products are tested under applicable Union or national emergency measures and are detained pending a result.
	Test results:
	— tick 'pending' where a test result is awaiting;
	— tick 'satisfactory' or 'not satisfactory' where the test result is available.
III.7	Welfare check
	This box only applies to animals falling within the scope of Regulation (EC) No 1/2005.
	Tick 'no' where the animals have not undergone a welfare check.
	Tick 'satisfactory' or 'not satisfactory' where the results of the check on the animals and on the transport conditions on arrival are available.

NOTES FOR THE COMPLETION OF MODEL ANIMAL HEALTH CERTIFICATES, OFFICIAL CERTIFICATES AND ANIMAL HEALTH/OFFICIAL CERTIFICATES FOR THE ENTRY INTO THE UNION OF ANIMALS, PRODUCTS OF ANIMAL ORIGIN, COMPOSITE PRODUCTS, GERMINAL PRODUCTS, ANIMAL BY-PRODUCTS, SPROUTS INTENDED FOR HUMAN CONSUMPTION AND SEEDS INTENDED FOR THE PRODUCTION OF SPROUTS FOR HUMAN CONSUMPTION

General

To positively select any option, please tick or mark the relevant box with a cross (x).

Unless otherwise specified or established by Union legislation, all entries or boxes apply to the model animal health certificates, official certificates and animal health/official certificates in Chapter 3.

Where a box is not compulsory, its content shall appear in strike-through.

Only one of the options may be selected in boxes I.18 and I.20.

Only one box from boxes I.21 to I.23 may be selected.

Where a box allows one or more options to be selected, only the selected option(s) will be displayed in the electronic version of the certificate.

PART I _	DESCRIPTION	\mathbf{OE}	CONSIGNMENT

Box	Description				
	Country				
	Indicate the name of the third country issuing the certificate.				
I.1	Consignor/Exporter				
	Indicate the name and address, country and ISO country code (1), of the natural or legal person dispatching the consignment. This person shall be established in a third country, except for the re-entry of consignments originating in the Union.				
1.2	Certificate reference				
	Indicate the unique alphanumeric code assigned by the competent authority of the third country. This box is not compulsory for certificates submitted in IMSOC. Repeated in box II.a				
I.2a	IMSOC reference				
	This is the unique alphanumeric code assigned by the IMSOC. Repeated in box II.b				
	This box shall not be completed if the certificate is not submitted in IMSOC.				
I.3	Central competent authority				
	Indicate the name of the central authority in the third country issuing the certificate.				

▼B

Local competent authority
Indicate, if applicable, the name of the local authority in the third country issuing the certificate.
Consignee/Importer
Indicate the name and address of the natural or legal person to whom the consignment is destined in the Member State or third country of destination in the case of transit.
This box is optional for consignments in transit through the Union.
Operator responsible for the consignment
Indicate the name and address, country and ISO country code, of the natural or legal person in the Member State in charge of the consignment when presented at the Border Control Post (BCP) who makes the necessary declarations to the competent authorities as the importer or on behalf of the importer. This operator may be the same as indicated in box I.5.
For products in transit through the Union: this box is compulsory.
For certain animals: this box is compulsory if required by the relevant Union legislation.
For animals and products for the placing on the market: this box is optional.
Country of origin
For products: indicate the name and ISO country code of the country where the goods were produced, manufactured or packaged (labelled with the identification mark).
For animals: indicate the country of residence during the required period as set out in the relevant Union legislation. For registered horses re-entering the Union after temporary export for competition, races, or invited for specific cultural events in certain third countries, indicate the country from which they were last consigned.
In the case of trade involving more than one third country (triangular trade), a separate certificate must be completed for each country of origin.
Region of origin
Where relevant for the movement of animals or products that are affected by regionalisation measures in accordance with Union legislation, indicate the code of the approved regions, zones or compartments as indicated in the Official Journal of the European Union.
Country of destination
Indicate the name and ISO country code of Member State of destination of the animals or products.
If the products are in transit, indicate the name and ISO country code of the third country of destination.

I.10	Region of destination					
	See box I.8					
I,11	Place of dispatch					
	Indicate the name and address, country and ISO country code of the establishment(s) from where the animals or the products come from. Where required by Union legislation, indicate its registration or approval number.					
	For animals: indicate the establishment where animals are regularly kept.					
	For semen, oocytes or embryos intended for artificial reproduction, indicate as appropriate semen collection centre, embryo collection or production team, germinal product processing establishment, germinal product storage centre or confined establishment. In the case of semen of ovine and caprine animals, the place of dispatch may be the establishment keeping donor animals.					
	For certain fishery products referred to in Article 10 of Commission Delegated Regulation (EU) 2019/625 (²): the place of dispatch may be a vessel.					
	For other products: any unit of a company in the food or animal by-product sector. Only the establishment shipping the products is to be named. In the case of trade involving more than one third country (triangular trade), the place of dispatch is the last third-country establishment of the export chain from which the final consignment is transported to the Union.					
I.12	Place of destination					
	Indicate the name and address, country and ISO country code, of the place where the consignment is being delivered for final unloading. Where applicable, also indicate the registration or approval number of the establishment of destination.					
	For storage of products in transit: indicate the name, address and approval number of the warehouse as defined in Article 2(3) of Commission Delegated Regulation (EU) 2019/2124 (3). This box is optional in the case of transit without storage of products.					
I.13	Place of loading					
	For animals: indicate the name and address of the place where the animals are loaded in the means of transport, and in the case they are assembled beforehand, the name and address of the establishment approved for assembly operations.					
	For products: indicate the name, address and category (for example, establishment, port or airport) of the final place where the products are to be loaded in the means of transport for the journey to the European Union. In the case of a container, state where it is to be placed aboard the final means of transport to the European Union. In the case of a ferry, indicate the place where the truck is to be embarked.					

Date and time of departure
For animals: the date and time at which the animals are scheduled to leave in their means of transport (aircraft, vessel, railway or road vehicle).
For products: the date when the means of transport departs (aircraft, vessel, railway or road vehicle).
Means of transport
Select one or more of the following means of transport for animals or goods leaving the country of dispatch, and indicate its identification: — aircraft (indicate the flight number); — vessel (indicate the vessel name and number); — railway (indicate the train identity and wagon number);
road vehicle (indicate the registration number with trailer number,
if applicable). In the case of a ferry, tick 'vessel' and identify the road vehicle(s) with registration number (with trailer number, if applicable), in addition to the name and number of the scheduled ferry.
Entry Border Control Post
Indicate the name of the BCP of entry into the Union for certificates not submitted in IMSOC or select the name of the BCP of entry into the Union and its unique alphanumeric code assigned by the IMSOC.
Accompanying documents
Indicate the type of required document: for example CITES permit, permit for invasive alien species (IAS), declarations or other documents including of a commercial nature.
Indicate the unique code of required accompanying documents and country of issue.
Commercial document references: indicate for example the airway bill number, the bill of lading number or the commercial number of the train or road vehicle.
Transport conditions
Indicate the category of required temperature during the transport of products (ambient, chilled, frozen). This box does not apply to animals.
Container number/Seal number
Where applicable, indicate the container number and seal number (more than one possible).
The container number must be provided if the goods are transported in closed containers.

Only the official seal number must be stated. An official seal applies if a seal is affixed to the container, truck or rail wagon under the supervision of the competent authority issuing the certificate.

I.20 | Certified as or for

Select the purpose of the movement of animals, the intended use of goods or the category as specified in the relevant Union legislation:

Feedstuffs: concerns only animal by-products intended for feeding farmed animals as referred to in Regulation (EC) No 1069/2009 of the European Parliament and of the Council (4).

Petfood: concerns only animal by-products intended for use as petfood or manufacturing of petfood as referred to in Regulation (EC) No 1069/2009.

Organic fertilisers and soil improvers: concerns certain animal by-products or derived products as referred to in Regulation (EC) No 1069/2009.

Technical use: animal by-products or derived products unfit for human or animal consumption, as referred to in Article 36 of Regulation (EC) No 1069/2009.

Pharmaceutical use: animal by-products unfit for human or animal consumption, as referred to in Article 33 of Regulation (EC) No 1069/2009.

Trade samples: as defined in point 39 of Annex I to Commission Regulation (EU) No 142/2011 (5).

Exhibition: concerns animals intended for an exhibition and sporting, cultural or similar events or display items as defined in point 34 of Annex I to Regulation (EU) No 142/2011.

Canning industry: concerns products for human consumption, (for example tuna) specifically intended only for the canning industry.

Products for human consumption: concerns only products of animal origin intended for human consumption for which an animal health, official certificate or animal health/official certificate is required by Union legislation.

Further processing: concerns products that have to be further processed before being placed on the market as well as live aquatic animals and products of animal origin from aquatic animals other than live aquatic animals, which are destined for a disease control aquatic food establishment as defined in Article 4(52) of Regulation (EU) 2016/429 of the European Parliament and of the Council.

Live aquatic animals for human consumption: aquatic animals intended for direct human consumption i.e. aquatic animals, which are delivered to the final consumer live or consumed live.

Confined establishment: as defined in Article 4(48) of Regulation (EU) 2016/429.

Quarantine establishment: as provided for in Article 14 of Commission Delegated Regulation (EU) 2019/2035 (⁶) as regards terrestrial animals and Article 15 of Commission Delegated Regulation (EU) 2020/691 (⁷) as regards aquaculture animals.

Travelling circus/Animal acts: as defined in respectively Article 2(34) and (35) of Delegated Regulation (EU) 2019/2035.

Release into the wild: concerns only live animals, which are to be released into the wild at the place of destination.

Registered equine animal: as defined in Article 2(30) of Delegated Regulation (EU) 2019/2035.

Further keeping: animals intended for establishments keeping live animals or for pet keepers, unless a more specific purpose or category from I.20 applies to them (e.g. quarantine, confined establishments etc.). It also includes animals, which are intended to restock game supplies or to be released into the wild, if those are intended to pass through an establishment before being released.

Purification centre: as defined in Article 2(2) of Delegated Regulation (EU) 2020/691.

Dispatch centre: as defined in Article 2(3) of Delegated Regulation (EU) 2020/691.

Relaying area: as defined in Article 2(4) of Delegated Regulation (EU) 2020/691.

Ornamental aquaculture establishment: as provided for in Article 17 or Article 18 of Delegated Regulation (EU) 2020/691.

Slaughter: for animals destined for a slaughterhouse, either directly or via an establishment approved for assembly operations.

Germinal products: as defined in Article 4(28) of Regulation (EU) 2016/429.

Other: intended for purposes not listed elsewhere in this classification, including aquatic animals intended for fishing baits.

I.21 For transit

Tick this box for the transit of animals or products through the European Union from one third country to another third country or from one part of a third country to another part of the same third country.

Indicate the name and ISO country code of the third country of destination.

I.22 For internal market

Tick this box where consignments are intended to be placed on the Union market.

I.23 For re-entry

Tick this box in the case of registered equine animals intended for competition or races, or invited for specific cultural events, and authorised for re-entering the European Union after their temporary export.

I.24	Total number of packages					
	Indicate the total number of packages in the consignment, where appropriate:					
	For animals: indicate the number of boxes, cages, containers, hives or stalls, in which the animals are being transported.					
	For semen, oocytes and embryos intended for artificial reproduction: indicate the number of containers.					
	In the case of bulk consignments, this box is optional.					
1.25	Total quantity					
	For terrestrial animals or germinal products: indicate as appropriate the total number of heads, hatching eggs or straws expressed as units.					
	For aquatic animals: indicate as appropriate, the total number of animals, eggs or larvae expressed as units.					
1.26	Total net weight/gross weight (kg)					
	The total net weight is the mass of the animals or goods themselves, without immediate containers or any packaging. It is automatically calculated by the IMSOC on the basis of the information entered in box I.27. The declared net weight of glazed food shall be exclusive of the glaze.					
	Indicate the total gross weight, i.e. the aggregate mass of the animals or goods, plus immediate containers and all their packaging, but excluding transport containers and other transport equipment.					
1.27	Description of consignment					
	Indicate the relevant Harmonised System (HS) code and the title defined by the World Customs Organisation as referred to in Council Regulation (EEC) No 2658/87 (8). This customs description shall be supplemented, if necessary, by additional information required to classify the animals or the products in veterinary terms. In addition, state any specific requirements relating to the animals or to the nature/processing of the products as defined in the relevant Union legislation.					
	For animals: indicate the species, category, identification method, identification number, age, sex, quantity or net weight, and test. For honeybees and bumble bees, indicate either of the following: queens with maximum 20 attendants, colonies with brood or other.					
	For semen, oocytes or embryos intended for artificial reproduction: indicate					
	 the type (semen, in vivo derived embryos, in vivo derived oocytes, in vitro produced embryos or micromanipulated embryos); 					
	— the collection or production date;					
	 the approval number of the establishment of collection or production (semen collection centre, embryo collection or production team, germinal product processing establishment, germinal product storage centre or confined establishment); 					

- the identification mark on the straw or other package;
- the quantity;
- the species, the subspecies (for animals from confined establishments, if needed) and identification number of the donor animal(s).

For products: indicate the species, type of products, type of treatment, identification mark and approval number of establishments when applicable together with ISO country code (such as slaughterhouse, processing plant, cold store), number of packages, type of packaging, batch number, net weight and the (oldest) date of collection/production. Tick 'final consumer' where products are packaged for final consumers.

For animal by-products or derived products: indicate the species, type of products, type of treatment, approval or registration number of the manufacturing or production establishment together with ISO country code, number of packages, type of packaging, batch number, net weight.

Species: indicate the scientific name or as defined in accordance with Union legislation.

Type of packaging: identify the type of packaging according to the definition given in Recommendation No 21 (9) of UN/CEFACT (United Nations Centre for Trade Facilitation and Electronic Business).

PART II - CERTIFICATION

Box	Description
	Country
	Indicate the name of the third country issuing the certificate.
	Certificate model
	This box refers to the specific title of each model of certificate.
II	Health information
	This box refers to the specific Union health and welfare requirements applicable to the animal species or to the nature of the products and as defined in the equivalence agreements with certain third countries or in other Union legislation, such as that for certification.
	Where there are no animal or public health or other attestations for the consignment, then the whole of this section shall be deleted or invalidated or not be present at all in accordance with the footnotes for Part II of the specific Union certificates.
II.2a	Certificate reference
	This is the unique alphanumeric code indicated in box I.2.
II.2b	IMSOC reference
	This is the unique alphanumeric code indicated in box I.2a

Certifying officer This box refers to the signature of the certifying officer as defined in point (26) of Article 3 of Regulation (EU) 2017/625 of the European Parliament and of the Council. Indicate the name in capital letters, qualification and title, where applicable, of the signatory, and the name and original stamp of the competent authority the signatory is attached to and date of signature.

II.2.8. Validity of animal health/official certificate

This animal health/official certificate is valid for 10 days from the date of issue. In the case of transport by waterway/sea of aquatic animals, this period of 10 days may be extended by the duration of the journey by waterway/sea.]

▶ "Notes

In accordance with the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community, and in particular Article 5(4) of the Protocol on Ireland/Northern Ireland in conjunction with Annex 2 to that Protocol, references to European Union in this certificate include the United Kingdom in respect of Northern Ireland.

"Aquatic animals" are animals as defined in point (3) of Article 4 of Regulation (EU) 2016/429 of the European Parliament and of the Council. "Aquaculture animals" are aquatic animals which are subject to aquaculture as defined in point (7) of Article 4 of Regulation (EU) 2016/429.

All aquatic animals and products of animal origin from aquatic animals other than live aquatic animals, to which Part II.2.4. of this certificate applies, must originate from a country/territory/zone/compartment which appears in a list of third countries and territories adopted by the Commission in accordance with Article 230(1) of Regulation (EU) 2016/429.

Part II.2.4. of the certificate **does not apply** to the following crustaceans and fish, and they may therefore originate from a country/territory or part thereof, which is listed by the Commission in accordance with Article 127(2) of Regulation (EU) 2017/625:

- (a) crustaceans which are packaged and labelled for human consumption in accordance with the specific requirements for those animals as set out in Regulation (EC) No 853/2004 and which are no longer able to survive as living animals if returned to the aquatic environment;
- (b) crustaceans which are intended for human consumption without further processing, provided they are packaged for retail sale in compliance with the requirements for such packages as set out in Regulation (EC) No 853/2004;
- (c) crustaceans which are packaged and labelled for human consumption in accordance with the specific requirements for those animals as set out in Regulation (EC) No 853/2004 and which are intended for further processing without temporary storage at the place of processing;
- (d) fish which are slaughtered and eviscerated before dispatch.

This certificate applies to products of animal origin as well as to live aquatic animals including those destined for a disease control aquatic food establishment as defined in point 52 of Article 4 of Regulation (EU) 2016/429 which are intended for human consumption in accordance with Annex III, Section VII to Regulation (EC) No 853/2004.

This animal health/official certificate shall be completed according to the notes for the completion of certificates provided for in Chapter 4 of Annex I to Implementing Regulation (EU) 2020/2235. ◀
