TITLE I

GENERAL PRINCIPLES

Article 2

Respect for the democratic principles and human rights as proclaimed in the Universal Declaration of Human Rights and as defined in the Convention for the Protection of Human Rights and Fundamental Freedoms, in the Helsinki Final Act and the Charter of Paris for a New Europe, respect for international law principles, including full cooperation with the International Criminal Tribunal for the former Yugoslavia (ICTY), and the rule of law as well as the principles of market economy as reflected in the Document of the CSCE Bonn Conference on Economic Cooperation, shall form the basis of the domestic and external policies of the Parties and constitute essential elements of this Agreement.

Article 3

The Parties consider that the proliferation of weapons of mass destruction (WMD) and their means of delivery, both to state and non-state actors, represents one of the most serious threats to international stability and security. The Parties therefore agree to co-operate and to contribute to countering the proliferation of weapons of mass destruction and their means of delivery through full compliance with and national implementation of their existing obligations under international disarmament and non-proliferation Treaties and Agreements and other relevant international obligations. The parties agree that this provision constitutes an essential element of this Agreement and will be part of the political dialogue that will accompany and consolidate these elements.

The Parties furthermore agree to co-operate and to contribute to countering the proliferation of weapons of mass destruction and their means of delivery by:

– taking steps to sign, ratify, or accede to, as appropriate, and fully implement all other relevant international instruments;

– the establishment of an effective system of national export controls, controlling the export as well as the transit of WMD-related goods, including a WMD end-use control on dual use technologies and containing effective sanctions for breaches of export controls.

Political dialogue on this matter may take place on a regional basis.

Article 4

The contracting parties reaffirm the importance they attach to the implementation of international obligations, notably the full cooperation with ICTY.

Article 5

International and regional peace and stability, the development of good neighbourly relations, human rights and the respect and protection of minorities are central to the Stabilisation and Association process referred to in the conclusions of the Council of the European Union on 21 June 1999. The conclusion and the implementation of this Agreement come within the framework of the conclusions of the Council of the European Union of 29 April 1997 and are based on the individual merits of Serbia.

Article 6

Serbia commits itself to continue to foster cooperation and good neighbourly relations with the other countries of the region including an appropriate level of mutual concessions

concerning the movement of persons, goods, capital and services as well as the development of projects of common interest, notably those related to border management and combating organised crime, corruption, money laundering, illegal migration and trafficking, including in particular in human beings, small arms and light weapons, as well as illicit drugs. This commitment constitutes a key factor in the development of the relations and cooperation between the Parties and thus contributes to regional stability.

Article 7

The Parties reaffirm the importance that they attach to the fight against terrorism and the implementation of international obligations in this area.

Article 8

The association shall be progressively and fully realised over a transitional period of a maximum of six years.

The Stabilisation and Association Council (hereinafter referred to as "SAC") established under Article 119 shall regularly review, as a rule on an annual basis, the implementation of this Agreement and the adoption and implementation by Serbia of legal, administrative, institutional and economic reforms. This review shall be carried out in the light of the preamble and in accordance with the general principles of this Agreement. It shall take duly into account priorities set in the European Partnership relevant to this Agreement and be in coherence with the mechanisms established under the Stabilisation and Association process, notably the progress report on the Stabilisation and Association process.

On the basis of this review, the SAC will issue recommendations and may take decisions. Where the review identifies particular difficulties, they may be referred to the mechanisms of dispute settlement established under this Agreement.

The full association shall be progressively realised. No later than the third year after the entry into force of this Agreement, the SAC shall make a thorough review of the application of this Agreement. On the basis of this review the SAC shall evaluate progress made by Serbia and may take decisions governing the following stages of association.

The aforementioned review will not apply to the free movement of goods, for which a specific schedule is foreseen in Title IV.

Article 9

This Agreement shall be fully compatible with and implemented in a manner consistent with the relevant WTO provisions, in particular Article XXIV of the General Agreement on Tariffs and Trade 1994 (GATT 1994) and Article V of the General Agreement on Trade in Services (GATS).

Article 12

A political dialogue at parliamentary level shall take place within the framework of the Stabilisation and Association Parliamentary Committee established under Article 125.

1. The provisions of Article XIX GATT 1994 and the WTO Agreement on Safeguards are applicable between the parties.

2. Notwithstanding paragraph 1 of this Article, where any product of one Party is being imported into the territory of the other Party in such increased quantities and under such conditions as to cause or threaten to cause:

   a) serious injury to the domestic industry of like or directly competitive products in the territory of the importing Party or

b) serious disturbances in any sector of the economy or difficulties which could bring about serious deterioration in the economic situation of a region of the importing Party,

the importing Party may take appropriate bilateral safeguard measures under the conditions and in accordance with the procedures laid down in this Article.

3. Bilateral safeguard measures directed at imports from the other Party shall not exceed what is necessary to remedy the problems, as defined in paragraph 2, which have arisen as a result of application of this Agreement. The safeguard measure adopted should consist of a suspension in the increase or in the reduction of the margins of preferences provided for under this Agreement for the product concerned up to a maximum limit corresponding to the basic duty referred to in Article 18 paragraph 4(a) and (b) and paragraph 5 for the same product. Such measures shall contain clear elements progressively leading to their elimination at the end of the set period, at the latest, and shall not be taken for a period exceeding two years.

In very exceptional circumstances, measures may be extended for a further period of maximum two years. No bilateral safeguard measure shall be applied to the import of a product that has previously been subject to such a measure for a period of time equal to that during which such measure had been previously applied, provided that the period of non-application is at least, two years since the expiry of the measure

4. In the cases specified in this Article, before taking the measures provided for therein or, in the cases to which paragraph 5(b) of this Article applies, as soon as possible, the Community on the one part or Serbia on the other part, shall supply the Stabilisation and Association Council with all relevant information required for a thorough examination of the situation, with a view to seeking a solution acceptable to the Parties concerned.

5. For the implementation of the paragraphs 1, 2, 3 and 4 the following provisions shall apply:

a) The problems arising from the situation referred to in this Article shall be immediately referred for examination to the Stabilisation and Association Council, which may take any decisions needed to put an end to such problems.

If the Stabilisation and Association Council or the exporting Party has not taken a decision putting an end to the problems, or no other satisfactory solution has been reached within 30 days of the matter being referred to the Stabilisation and Association Council, the importing Party may adopt the appropriate measures to remedy the problem in accordance with this Article. In the selection of safeguard measures, priority must be given to those which least disturb the functioning of the arrangements established in this Agreement. Safeguard measures applied in accordance with Article XIX GATT 1994 and the WTO Agreement on Safeguards shall preserve the level/margin of preference granted under this Agreement.

b) Where exceptional and critical circumstances requiring immediate action make prior information or examination, as the case may be, impossible, the Party concerned may, in the situations specified in this Article, apply forthwith provisional measures necessary to deal with the situation and shall inform the other Party immediately thereof.

The safeguard measures shall be notified immediately to the Stabilisation and Association Council and shall be the subject of periodic consultations within that

body, particularly with a view to establishing a timetable for their abolition as soon as circumstances permit.

6. In the event of the Community on the one part or Serbia on the other part subjecting imports of products liable to give rise to the problems referred to in this Article to an administrative procedure having as its purpose the rapid provision of information on the trend of trade flows, it shall inform the other Party.

Article 42
Shortage clause

1. Where compliance with the provisions of this Title leads to:

   a) a critical shortage, or threat thereof, of foodstuffs or other products essential to the exporting Party; or

   b) re-export to a third country of a product against which the exporting Party maintains quantitative export restrictions, export duties or measures or charges having equivalent effect, and where the situations referred to above give rise, or are likely to give rise to major difficulties for the exporting Party

   that Party may take appropriate measures under the conditions and in accordance with the procedures laid down in this Article.

2. In the selection of measures, priority must be given to those which least disturb the functioning of the arrangements in this Agreement. Such measures shall not be applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination where the same conditions prevail, or a disguised restriction on trade and shall be eliminated when the conditions no longer justify their maintenance.

3. Before taking the measures provided for in paragraph 1 or, as soon as possible in cases to which paragraph 4 applies, the Community or Serbia, shall supply the Stabilisation and Association Council with all relevant information, with a view to seeking a solution acceptable to the Parties. The Parties within the Stabilisation and Association Council may agree on any means needed to put an end to the difficulties. If no agreement is reached within 30 days of the matter being referred to the Stabilisation and Association Council, the exporting Party may apply measures under this Article on the exportation of the product concerned.

4. Where exceptional and critical circumstances requiring immediate action make prior information or examination, as the case may be, impossible, the Community or Serbia may apply forthwith the precautionary measures necessary to deal with the situation and shall inform the other Party immediately thereof.

5. Any measures applied pursuant to this Article shall be immediately notified to the Stabilisation and Association Council and shall be the subject of periodic consultations within that body, particularly with a view to establishing a timetable for their elimination as soon as circumstances permit.

Article 43
State monopolies

Serbia shall progressively adjust any state monopolies of a commercial character so as to ensure that, three years after the entry into force of this Agreement, no discrimination regarding the conditions under which goods are procured and marketed exists between nationals of the Member States of the European Union and Serbia.

Article 44
Rules of origin

Except if otherwise stipulated in this Agreement, Protocol 3 lays down the rules of origin for the application of the provisions of this Agreement.

Article 45
Restrictions authorised

This Agreement shall not preclude prohibitions or restrictions on imports, exports or goods in transit justified on grounds of public morality, public policy or public security; the protection of health and life of humans, animals or plants; the protection of national treasures of artistic, historic or archaeological value or the protection of intellectual, industrial and commercial property, or rules relating to gold and silver. Such prohibitions or restrictions shall not, however, constitute a means of arbitrary discrimination or a disguised restriction on trade between the Parties.

Article 46
Failure to provide administrative cooperation

1. The Parties agree that administrative cooperation is essential for the implementation and the control of the preferential treatment granted under this Title and underline their commitment to combat irregularities and fraud in customs and related matters.

2. Where a Party has made a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud under this Title, the Party concerned may temporarily suspend the relevant preferential treatment of the product(s) concerned in accordance with this Article.

3. For the purpose of this Article a failure to provide administrative cooperation shall mean, inter alia:

   a) a repeated failure to respect the obligations to verify the originating status of the product(s) concerned;

   b) a repeated refusal or undue delay in carrying out and/or communicating the results of subsequent verification of the proof of origin;

   c) a repeated refusal or undue delay in obtaining authorisation to conduct administrative cooperation missions to verify the authenticity of documents or accuracy of information relevant to the granting of the preferential treatment in question.

   For the purpose of this Article a finding of irregularities or fraud may be made, inter alia, where there is a rapid increase, without satisfactory explanation, in imports of goods exceeding the usual level of production and export capacity of the other Party, which is linked to objective information concerning irregularities or fraud.

4. The application of a temporary suspension shall be subject to the following conditions:

   a) The Party which has made a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud shall without undue delay notify the Stabilisation and Association Committee of its finding together with the objective information and enter into consultations within the Stabilisation and Association Committee, on the basis of all relevant information and objective findings, with a view to reaching a solution acceptable to both Parties.

b) Where the Parties have entered into consultations within the Stabilisation and Association Committee as above and have failed to agree on an acceptable solution within three months following the notification, the Party concerned may temporarily suspend the relevant preferential treatment of the product(s) concerned. A temporary suspension shall be notified to the Stabilisation and Association Committee without undue delay.

c) Temporary suspensions under this Article shall be limited to that necessary to protect the financial interests of the Party concerned. They shall not exceed a period of six months, which may be renewed. Temporary suspensions shall be notified immediately after their adoption to the Stabilisation and Association Committee. They shall be subject to periodic consultations within the Stabilisation and Association Committee in particular with a view to their termination as soon as the conditions for their application are no longer given.

5. At the same time as the notification to the Stabilisation and Association Committee under paragraph 4(a) of this Article, the Party concerned should publish a notice to importers in its Official Journal. The notice to importers should indicate for the product concerned that there is a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud.

Article 47

In case of error by the competent authorities in the proper management of the preferential system at export, and in particular in the application of the provisions of Protocol 3 to the present Agreement where this error leads to consequences in terms of import duties, the Contracting Party facing such consequences may request the Stabilisation and Association Council to examine the possibilities of adopting all appropriate measures with a view to resolving the situation.

Article 48

The application of this Agreement shall be without prejudice to the application of the provisions of Community law to the Canary Islands.

It may take all necessary measures to that end.

Article 58

CHAPTER III

Article 59

1. 2. In step with the liberalisation process mentioned in paragraph 1, the Parties shall permit the temporary movement of natural persons providing the service or who are employed by the service provider as key personnel as defined in Article 58, including natural persons who are representatives of a Community or Serbian company or national and are seeking temporary entry for the purpose of negotiating for the sale of services or entering into agreements to sell services for that service provider, where those representatives will not be engaged in making direct sales to the general public or in supplying services themselves.

3. After four years, the Stabilisation and Association Council shall take the measures necessary to progressively implement the provisions of paragraph 1. Account shall be taken of the progress achieved by the Parties in the approximation of their laws.

Article 60

1. The Parties shall not take any measures or actions which render the conditions for the supply of services by Community and Serbia nationals or companies which are established in a Party other than that of the person for whom the services are intended significantly more restrictive as compared to the situation existing on the day preceding the day of entry into force of this Agreement.

2. If one Party is of the view that measures introduced by the other Party since the entry into force of this Agreement result in a situation which is significantly more restrictive in respect of supply of services as compared with the situation existing at the date of entry into force of this Agreement, such first Party may request the other Party to enter into consultations.

Article 61

With regard to supply of transport services between the Community and Serbia, the following provisions shall apply:

1. With regard to land transport, Protocol 4 lays down the rules applicable to the relationship between the Parties in order to ensure, particularly, unrestricted road transit traffic across Serbia and the Community as a whole, the effective application of the principle of non discrimination and progressive harmonisation of the transport legislation of Serbia with that of the Community.

2. With regard to international maritime transport, the Parties undertake to apply effectively the principle of unrestricted access to the international maritime markets and trades on a commercial basis, and to respect international and European obligations in the field of safety, security and environmental standards.

   The Parties affirm their commitment to a freely competitive environment as an essential feature of international maritime transport.

3. In applying the principles of paragraph 2, the Parties shall:

   a) not introduce cargo-sharing clauses in future bilateral Agreements with third countries;

   c) Each Party shall grant, *inter alia*, no less favourable treatment for the ships operated by nationals or companies of the other Party than that accorded to a Party's own ships with regard to access to ports open to international trade, the use of infrastructure and auxiliary maritime services of the ports, as well as related fees and charges, customs facilities and the assignment of berths and facilities for loading and unloading.

4. With a view to ensuring a coordinated development and progressive liberalisation of transport between the Parties adapted to their reciprocal commercial needs, the conditions of mutual market access in air transport shall be dealt with by the ECAA.

5. Prior to the conclusion of the ECAA, the Parties shall not take any measures or actions which are more restrictive or discriminatory as compared with the situation existing prior to the entry into force of this Agreement.

6. Serbia shall adapt its legislation, including administrative, technical and other rules, to that of the Community existing at any time in the field of air, maritime, inland waterway and land transport insofar as it serves liberalisation purposes and mutual access to markets of the Parties and facilitates the movement of passengers and of goods.

7. In step with the common progress in the achievement of the objectives of this Chapter, the Stabilisation and Association Council shall examine ways of creating the conditions necessary for improving freedom to provide air, land and inland waterway transport services.

CHAPTER IV

CURRENT PAYMENTS AND MOVEMENT OF CAPITAL

With regard to transactions on the capital and financial account of balance of payments, from the entry into force of this Agreement, the Parties shall ensure the free movement of capital relating to direct investments made in companies formed in accordance with the laws of the host country and investments made in accordance with the provisions of Chapter II of Title V, and the liquidation or repatriation of these investments and of any profit stemming there from.

2. With regard to transactions on the capital and financial account of balance of payments, from the entry into force of this Agreement, the Parties shall ensure the free movement of capital relating to credits related to commercial transactions or to the provision of services in which a resident of one of the Parties is participating, and to financial loans and credits, with maturity longer than a year.

3. As from the entry into force of this Agreement, Serbia shall authorise, by making full and expedient use of its existing procedures, the acquisition of real estate in Serbia by nationals of Member States of the European Union. Within four years from the entry into force of this Agreement, Serbia shall progressively adjust its legislation concerning the acquisition of real estate in its territory by nationals of the Member States of the European Union to ensure the same treatment as compared to its own nationals.

   The Community and Serbia shall also ensure, from four years after the entry into force of this Agreement, free movement of capital relating to portfolio investment and financial loans and credits with maturity shorter than a year.

4. Without prejudice to paragraph 1, the Parties shall not introduce any new restrictions on the movement of capital and current payments between residents of the Community and Serbia and shall not make the existing arrangements more restrictive.

5. Without prejudice to the provisions of Article 62 and of this Article, where, in exceptional circumstances, movements of capital between the Community and Serbia cause, or threaten to cause, serious difficulties for the operation of exchange rate policy or monetary policy in the Community or Serbia, the Community and Serbia, respectively, may take safeguard measures with regard to movements of capital between the Community and Serbia for a period not exceeding six months if such measures are strictly necessary.

6. Nothing in the above provisions shall be taken to limit the rights of economic operators of the Parties from benefiting from any more favourable treatment that may be provided for in any existing bilateral or multilateral Agreement involving Parties to this Agreement.

7. The Parties shall consult each other with a view to facilitating the movement of capital between the Community and Serbia in order to promote the objectives of this Agreement.

2. They shall not apply to activities that in the territory of any of the Parties are connected, even occasionally, with the exercise of official authority.

Article 66

For the purpose of this Title, nothing in this Agreement shall prevent the Parties from applying their laws and regulations regarding entry and stay, employment, working conditions, establishment of natural persons and supply of services, notably insofar as the granting, renewal or refusal of a residence permit is concerned, provided that, in so doing, they do not apply them in such a manner as to nullify or impair the benefits accruing to any Party under the terms of a specific provision of this Agreement. This provision shall be without prejudice to the application of Article 65.

Article 67

Companies which are controlled and exclusively owned jointly by Serbian companies, or nationals of Serbia and Community companies or nationals shall also be covered by the provisions of this Title.

The Community and Serbia shall inform the other Party forthwith.
