DECISÃO DE EXECUÇÃO (UE) 2025/180 DA COMISSÃO

de 24 de janeiro de 2025

que altera a Decisão de Execução (UE) 2024/2207 relativa a determinadas medidas de emergência contra a varíola ovina e caprina na Grécia

[notificada com o número C(2025) 653]

(Apenas faz fé o texto em língua grega)

(Texto relevante para efeitos do EEE)

A COMISSÃO EUROPEIA,

Tendo em conta o Tratado sobre o Funcionamento da União Europeia,

Tendo em conta o Regulamento (UE) 2016/429 do Parlamento Europeu e do Conselho, de 9 de março de 2016, relativo às doenças animais transmissíveis e que altera e revoga determinados atos no domínio da saúde animal («Lei da Saúde Animal») ([1]), nomeadamente o artigo 259.º, n.º 1,

Considerando o seguinte:

(1) A varíola ovina e caprina é uma doença infecciosa viral que afeta os ovinos e caprinos e pode ter um impacto grave na população animal em causa e na rentabilidade das explorações agrícolas, causando perturbações na circulação de remessas desses animais e produtos deles derivados na União e nas exportações para países terceiros.

(2) Em caso de foco de varíola ovina e caprina em ovinos e caprinos, existe um risco importante de propagação dessa doença a outros estabelecimentos de caprinos e ovinos.

(3) O Regulamento Delegado (UE) 2020/687 da Comissão ([2]) complementa as regras de controlo das doenças listadas referidas no artigo 9.º, n.º 1, alíneas a), b) e c), do Regulamento (UE) 2016/429 e definidas como doenças de categoria A, B e C no Regulamento de Execução (UE) 2018/1882 da Comissão ([3]). Em especial, o artigo 21.º e o artigo 22.º do Regulamento Delegado (UE) 2020/687 preveem o estabelecimento de uma zona submetida a restrições em caso de foco de uma doença de categoria A, incluindo a varíola ovina e caprina, e a aplicação nessa zona de determinadas medidas. O artigo 21.º, n.º 1, do referido regulamento delegado determina que a zona submetida a restrições deve incluir uma zona de proteção, uma zona de vigilância e, se necessário, outras zonas submetidas a restrições em redor de ou adjacentes às zonas de proteção e de vigilância.

(4) A fim de fazer face aos focos de varíola ovina e caprina na Grécia, a Comissão adotou a Decisão de Execução (UE) 2024/2207 ([4]) com base no artigo 259.º do Regulamento (UE) 2016/429. Esta decisão estabelece determinadas medidas de emergência contra a varíola ovina e caprina na Grécia. Mais particularmente, a Decisão de Execução (UE) 2024/2207 dispõe que as zonas de proteção e de vigilância e as outras zonas submetidas a restrições estabelecidas por esse Estado-Membro, em conformidade com o Regulamento Delegado (UE) 2020/687, no seguimento de focos dessa doença, devem englobar pelo menos as áreas enumeradas no anexo dessa decisão de execução.

([1]) JO L 84 de 31.3.2016, p. 1, ELI: http://data.europa.eu/eli/reg/2016/429/oj.

([2]) Regulamento Delegado (UE) 2020/687 da Comissão, de 17 de dezembro de 2019, que complementa o Regulamento (UE) 2016/429 do Parlamento Europeu e do Conselho no que se refere às regras de prevenção e controlo de certas doenças listadas (JO L 174 de 3.6.2020, p. 64, ELI: http://data.europa.eu/eli/reg_del/2020/687/oj).

([3]) Regulamento de Execução (UE) 2018/1882 da Comissão, de 3 de dezembro de 2018, relativo à aplicação de determinadas regras de prevenção e controlo de doenças a categorias de doenças listadas e que estabelece uma lista de espécies e grupos de espécies que apresentam um risco considerável de propagação dessas doenças listadas (JO L 308 de 4.12.2018, p. 21, ELI: http://data.europa.eu/eli/reg_impl/2018/1882/oj).

([4]) Decisão de Execução (UE) 2024/2207 da Comissão, de 29 de agosto de 2024, relativa a determinadas medidas de emergência contra a varíola ovina e caprina na Grécia (JO L, 2024/2207, 30.8.2024, ELI: http://data.europa.eu/eli/dec_impl/2024/2207/oj).

(5) Após a adoção da Decisão de Execução (UE) 2024/2207, a Grécia notificou a Comissão da ocorrência de focos adicionais de varíola ovina e caprina em estabelecimentos onde eram mantidos ovinos e caprinos. Consequentemente, o anexo da referida decisão de execução foi devidamente alterado várias vezes para ter em conta esses focos adicionais.

(6) Desde a última alteração da Decisão de Execução (UE) 2024/2207, a Grécia notificou a Comissão da ocorrência de 19 novos focos de varíola ovina e caprina em estabelecimentos onde eram mantidos ovinos e caprinos, nas unidades regionais de Evros, Magnésia, Rodopi, Xanti, Aetolia-Acarnania, Heráclion e Fócida.

(7) Por conseguinte, as áreas enumeradas no anexo da Decisão de Execução (UE) 2024/2207 como zonas de proteção e de vigilância e outras zonas submetidas a restrições para a Grécia devem ser novamente ajustadas a fim de impedir a continuação da propagação dessa doença na Grécia e ao resto da União ou a países terceiros, devendo a duração das medidas a aplicar nessas zonas também ser ajustada. Consequentemente, é necessário alterar a lista de zonas submetidas a restrições, bem como a duração das medidas a aplicar nessas zonas estabelecidas no anexo da referida decisão de execução.

(8) A dimensão das zonas de proteção e de vigilância e das outras zonas submetidas a restrições e a duração das medidas a aplicar nessas zonas baseiam-se nos critérios estabelecidos no artigo 64.º, n.º 1, do Regulamento (UE) 2016/429 e nas regras estabelecidas no Regulamento Delegado (UE) 2020/687, incluindo a situação epidemiológica no que diz respeito à varíola ovina e caprina nas áreas afetadas por essa doença e a situação epidemiológica global da varíola ovina e caprina no Estado-Membro em causa, bem como o nível de risco de continuação da propagação da doença. A duração das medidas tem também em conta as normas internacionais do Código Sanitário para os Animais Terrestres da Organização Mundial da Saúde Animal (OMSA). Na situação atual, existe um risco muito elevado de continuação da propagação da doença, em especial devido ao facto de, segundo as informações fornecidas pela autoridade competente, terem sido comunicados, pela primeira vez, focos na ilha de Samotrácia, na unidade regional de Evros, e na unidade regional de Heráclion, na ilha de Creta, o que sugere que a doença continua a persistir e a propagar-se, apesar das medidas já em vigor.

(9) Além disso, tendo em conta a ocorrência de numerosos novos focos de varíola ovina e caprina na Grécia durante as últimas duas semanas, é também necessário prorrogar a proibição de circulação de ovinos e caprinos a partir de todo o território da Grécia para um destino situado fora da Grécia até 15 de fevereiro de 2025, a fim de evitar a propagação da doença ao resto da União e a países terceiros, bem como evitar obstáculos injustificados ao comércio.

(10) Tendo em conta a situação epidemiológica atual na União no que diz respeito à varíola ovina e caprina, o período durante o qual as medidas previstas na Decisão de Execução (UE) 2024/2207 são aplicáveis deve ser prorrogado até 31 de julho de 2025.

(11) As medidas previstas na presente decisão estão em conformidade com o parecer do Comité Permanente dos Vegetais, Animais e Alimentos para Consumo Humano e Animal,

ADOTOU A PRESENTE DECISÃO:

Artigo 1.º

Alterações da Decisão de Execução (UE) 2024/2207

A Decisão de Execução (UE) 2024/2207 é alterada do seguinte modo:

1) No artigo 3.º, alínea e), a data de «31 de janeiro de 2025» é substituída pela data de «15 de fevereiro de 2025».

2) No artigo 4.º, a data de «30 de junho de 2025» é substituída pela data de «31 de julho de 2025».

3) O anexo é substituído pelo texto constante do anexo da presente decisão.

Artigo 2.º

Destinatário

A destinatária da presente decisão é a República Helénica.

Feito em Bruxelas, em 24 de janeiro de 2025.

Pela Comissão
Olivér VÁRHELYI
Membro da Comissão
