# РЕШЕНИЕ ЗА ИЗПЪЛНЕНИЕ (ЕС) 2015/72 на Комисията

## от 3 декември 2014 година

## за приемане на осма актуализация на списъка на територите от значение за Общността в Атлантическия биогеографски регион

*(нотифицирано под номер C(2014) 9091)*

ЕВРОПЕЙСКАТА КОМИСИЯ,

като взе предвид Договора за функционирането на Европейския съюз,

като взе предвид Директива 92/43/ЕИО на Съвета от 21 май 1992 г. за опазване на естествените местообитания и на дивата флора и фауна ([1]), и по-специално член 4, параграф 2, трета алинея от нея,

като има предвид, че:

(1) Атлантическият биогеографски регион, посочен в член 1, буква в), подточка iii) от Директива 92/43/ЕИО, обхваща намиращите се в Съюза територии на Ирландия, Нидерландия и Обединеното кралство, както и части от намиращите се в Съюза територии на Белгия, Дания, Германия, Испания, Франция и Португалия, както е обозначено на биогеографската карта, одобрена на 20 април 2005 г. от комитета, създаден съгласно член 20 от посочената директива („Комитета по местообитанията“).

(2) Първоначалният списък на територите от значение за Общността в Атлантическия биогеографски район по смисъла на Директива 92/43/ЕИО бе приет с Решение 2004/813/ЕО на Комисията ([2]). Списъкът е актуализиран последно с Решение за изпълнение 2013/740/ЕС на Комисията ([3]).

(3) Територите, включени в списъка на територите от значение за Общността в Атлантическия биогеографски регион, са част от мрежата „Натура 2000“, която представлява съществен елемент от опазването на биологичното разнообразие в Съюза. С цел да бъде постигнат допълнителен напредък по отношение на реалното изграждане на мрежата „Натура 2000“ и в контекста на динамично приспособяване на мрежата, списъците на територите от значение за Общността се преразглеждат редовно.

(4) От февруари 2013 г. насам държавите членки са предложили допълнителни територии от значение за Общността в Атлантическия биогеографски регион по смисъла на член 1 от Директива 92/43/ЕИО. Освен това държавите членки са представили промени в информацията за територите, която се съдържа в списъка на територите от значение за Общността в Атлантическия биогеографски регион.

(5) Въз основа на проектосписъка, изготвен от Комисията със съгласието на всяка от съответните държави членки, в който са посочени и територите с приоритетни типове естествени местообитания или с приоритетни биологични видове, следва да се приеме актуализиран списък на територите, избрани за територии от значение за Общността в Атлантическия биогеографски регион. Член 4, параграф 4 и член 6, параграф 1 от Директива 92/43/ЕИО се прилагат за нововключените територии.

(6) Данните за съществуването и разпространението на типовете естествени местообитания и биологичните видове се обогатяват постоянно в резултат на наблюдението съгласно член 11 от Директива 92/43/ЕИО. Следователно оценката и изборът на територите на равнището на ЕС са направени въз основа на най-надеждната налична към настоящия момент информация.

(7) Някои държави членки не са предложили достатъчно територии, за да изпълнят изискванията на Директива 92/43/ЕИО по отношение на някои типове местообитания и някои биологични видове. Освен това данните за съществуването и разпространението на някои типове естествени местообитания от приложение I и на някои биологични видове от приложение II към Директива 92/43/ЕИО са все още непълни. За тези биологични видове и типове местообитания следователно не може да се направи заключението, че мрежата „Натура 2000“ е завършена.

(8) За постигане на по-голяма яснота и прозрачност Решение за изпълнение 2013/740/ЕС следва да бъде отменено.

(9) Мерките, предвидени в настоящото решение, са в съответствие със становището на Комитета по местообитанията,

([1]) ОВ L 206, 22.7.1992 г., стр. 7.

([2]) Решение 2004/813/ЕО на Комисията от 7 декември 2004 г. за приемане съгласно Директива 92/43/ЕИО на Съвета на списъка с обекти от значение за Общността за Атлантическия биогеографски регион (ОВ L 387, 29.12.2004 г., стр. 1).

([3]) Решение за изпълнение 2013/740/ЕС на Комисията от 7 ноември 2013 г. за приемане на седми актуализиран списък на територите от значение за Общността в Атлантическия биогеографски регион (ОВ L 350, 21.12.2013 г., стр. 201).

ПРИЕ НАСТОЯЩОТО РЕШЕНИЕ:

*Член 1*

Осмата актуализация на списъка на територии от значение за Общността в Атлантическия биогеографски регион, съдържаща се в приложението, е приета.

*Член 2*

Решение за изпълнение 2013/740/ЕС се отменя.

*Член 3*

Адресати на настоящото решение са държавите членки.

Съставено в Брюксел на 3 декември 2014 година.

*За Комисията*

Karmenu VELLA

*Член на Комисията*

*ПРИЛОЖЕНИЕ*

**Осма актуализация на списъка на териториите от значение за Общността в Атлантическия биогеографски регион**

Всяка територия от значение за Общността (ТЗО) се идентифицира чрез данните, попълнени във формуляра „Натура 2000“, включващ и съответната карта. Тези данни са предадени от компетентните национални органи в съответствие с член 4, параграф 1, втора алинея от Директива 92/43/ЕИО.

Таблицата по-долу включва следните данни:

А: код на ТЗО от девет знака, първите два от които представляват кода по ISO на държавата членка;

Б: наименование на ТЗО;

В: * = наличие в рамките на ТЗО на най-малко един тип приоритетно естествено местообитание и/или приоритетен биологичен вид по смисъла на член 1 от Директива 92/43/ЕИО;

Г: площ на ТЗО в хектари или дължина на ТЗО в километри;

Д: географски координати на ТЗО (географска ширина и географска дължина) в десетични градуси.

Всички данни, посочени в списъка на Съюза по-долу, се основават на сведенията, предложени, предоставени и потвърдени от Белгия, Дания, Германия, Ирландия, Испания, Франция, Нидерландия, Португалия и Обединеното кралство.
