# COMMISSION IMPLEMENTING DECISION (EU) 2026/2580

## of 13 November 2026

## amending Implementing Decision (EU) 2025/1160 concerning certain emergency measures relating to sheep pox and goat pox in Bulgaria

*(notified under document C(2026) 8218)*

**(Only the Bulgarian text is authentic)**

**(Text with EEA relevance)**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2016/429 of the European Parliament and of the Council of 9 March 2016 on transmissible animal diseases and amending and repealing certain acts in the area of animal health ('Animal Health Law') ([1]), and in particular Article 259(1) thereof,

Whereas:

(1) Sheep pox and goat pox is an infectious viral disease affecting caprine and ovine animals, and it can have a severe impact on the concerned animal population and the profitability of farming causing disturbance to movements of consignments of those animals and products thereof within the Union and exports to third countries. In the event of an outbreak of sheep pox and goat pox in caprine or ovine animals, there is a serious risk of the spread of that disease to other establishments keeping those animals.

(2) Commission Delegated Regulation (EU) 2020/687 ([2]) supplements the rules for the control of the listed diseases referred to in Article 9(1), points (a), (b) and (c), of Regulation (EU) 2016/429, and defined as category A, B and C diseases in Commission Implementing Regulation (EU) 2018/1882 ([3]). In particular, Articles 21 and 22 of Delegated Regulation (EU) 2020/687 provide for the establishment of a restricted zone in the event of an outbreak of a category A disease, including sheep pox and goat pox, and for certain measures to be applied therein. In addition, Article 21(1) of that Delegated Regulation provides that the restricted zone is to comprise a protection zone, a surveillance zone, and, if necessary, a further restricted zone.

(3) Commission Implementing Decision (EU) 2025/1160 ([4]) was adopted following outbreaks of sheep pox and goat pox in Bulgaria, and it lays down certain emergency measures to be taken by that Member State. More particularly, Article 1 of Implementing Decision (EU) 2025/1160 provides that the protection, surveillance, and further restricted zones to be established by that Member State, in accordance with Delegated Regulation (EU) 2020/687, are to comprise at least the areas listed in Parts A and B of Annex I to that Implementing Decision. It also provides that the measures required to be applied in those zones are to be applied at least until the dates listed in that Annex. In addition, Article 2 of Implementing Decision (EU) 2025/1160 lays down certain prohibitions on movements of caprine and ovine animals due to the outbreaks, including a prohibition on movements of caprine and ovine animals from any part of the territory of Bulgaria to a destination located outside that territory until 31 December 2026.

([1]) OJ L 84, 31.3.2016, p. 1, ELI: http://data.europa.eu/eli/reg/2016/429/oj.

([2]) Commission Delegated Regulation (EU) 2020/687 of 17 December 2019 supplementing Regulation (EU) 2016/429 of the European Parliament and the Council, as regards rules for the prevention and control of certain listed diseases (OJ L 174, 3.6.2020, p. 64, ELI: http://data.europa.eu/eli/reg_del/2020/687/oj).

([3]) Commission Implementing Regulation (EU) 2018/1882 of 3 December 2018 on the application of certain disease prevention and control rules to categories of listed diseases and establishing a list of species and groups of species posing a considerable risk for the spread of those listed diseases (OJ L 308, 4.12.2018, p. 21, ELI: http://data.europa.eu/eli/reg_impl/2018/1882/oj).

([4]) Commission Implementing Decision (EU) 2025/1160 of 5 June 2025 concerning certain emergency measures relating to sheep pox and goat pox in Bulgaria and repealing Implementing Decision (EU) 2025/948 (OJ L, 2025/1160, 10.6.2025, ELI: http://data.europa.eu/eli/dec_impl/2025/1160/oj).

(4) At the time of adoption of Implementing Decision (EU) 2025/1160, Article 21(1), point (c), of Delegated Regulation (EU) 2020/687 provided for the establishment, if necessary, of further restricted zones around or adjacent to the protection and surveillance zones. In view of the epidemiological situation at the time of adoption of Implementing Decision (EU) 2025/1160, the measures applicable in those further restricted zones needed to remain in place after the minimum periods required for the protection and surveillance zones. Accordingly, Article 3 of Implementing Decision (EU) 2025/1160 currently provides for the listing, in Annex II thereto, of the areas in Bulgaria where the measures applicable to further restricted zones, as laid down in Delegated Regulation (EU) 2020/687, are to apply after the periods applicable to the corresponding protection and surveillance zones.

(5) Subsequently, Article 21(1), point (c), of Delegated Regulation (EU) 2020/687 was amended, by Commission Delegated Regulation (EU) 2026/322 ([5]), to remove the requirement for further restricted zones to be established around or adjacent to protection and surveillance zones. As a result, the establishment and duration of further restricted zones are no longer necessarily linked to those of protection and surveillance zones. It is therefore necessary to amend Implementing Decision (EU) 2025/1160 in order to amend Article 3 and delete Annex II thereto, which specifically provide for the listing of areas in Bulgaria subject to measures applicable to further restricted zones after the periods applicable to the corresponding protection and surveillance zones.

(6) In addition, since the last amendment of Implementing Decision (EU) 2025/1160, by Commission Implementing Decision (EU) 2026/2207 ([6]), Bulgaria has notified the Commission of 17 additional outbreaks of sheep pox and goat pox in establishments keeping ovine animals in the regions of Dobrich, Haskovo, Kardzhali, Kyustendil, Plovdiv, Sofia and Stara Zagora, within the period from 24 September to 8 November 2026. Some of those new outbreaks were located outside the restricted zones that were already established as a result of previous outbreaks, namely in the regions of Dobrich and Sofia, where the disease had not been previously reported. In response, Bulgaria has established protection and surveillance zones where the disease control measures laid down in Delegated Regulation (EU) 2020/687 are being applied.

(7) Therefore, the areas listed as protection, surveillance, and further restricted zones for Bulgaria in Annex I to Implementing Decision (EU) 2025/1160, as well as the duration of the measures applicable therein, should be adjusted to take account of the 17 additional outbreaks. Accordingly, it is necessary to amend the list of restricted zones, and the duration of the measures to be applied therein, set out in Annex I to that Implementing Decision.

(8) Annex I to Implementing Decision (EU) 2025/1160 should, therefore, be amended accordingly, and Annex II should be deleted.

(9) The size of the protection, surveillance, and further restricted zones, and the duration of the measures to be applied therein, is based on the criteria laid down in Article 64(1) of Regulation (EU) 2016/429, as well as the rules laid down in Delegated Regulation (EU) 2020/687. The criteria applied for the choice of the size and the number of the protection, surveillance, and further restricted zones, as well as of the duration of the measures to be applied therein, include a consideration of not only the epidemiological situation as regards sheep pox and goat pox in the areas affected by that disease, but also of the overall epidemiological situation of sheep pox and goat pox in the entire territory of the Member State concerned by that disease, as well as the level of risk for the further spread of the disease. In addition, the duration of the measures provided for by this Decision has been determined in line with the international standards set out in the Terrestrial Animal Health Code of the World Organisation for Animal Health (WOAH) ([7]).

([5]) Commission Delegated Regulation (EU) 2026/322 of 12 February 2026 amending and correcting Delegated Regulation (EU) 2020/687 supplementing Regulation (EU) 2016/429 of the European Parliament and the Council as regards rules for the prevention and control of certain listed diseases (OJ L, 2026/322, 22.4.2026, ELI: http://data.europa.eu/eli/reg_del/2026/322/oj).

([6]) Commission Implementing Decision (EU) 2026/2207 of 28 September 2026 amending Implementing Decision (EU) 2025/1160 concerning certain emergency measures relating to sheep pox and goat pox in Bulgaria (OJ L, 2026/2207, 1.10.2026, ELI: http://data.europa.eu/eli/dec_impl/2026/2207/oj).

([7]) https://www.woah.org/en/what-we-do/standards/codes-and-manuals/.

(10) In addition, given the current epidemiological situation in Bulgaria as regards sheep pox and goat pox, and in order to minimise the risk of the further spread of that disease, it is necessary to prolong the period of application of the prohibition of movements of ovine and caprine animals from the territory of Bulgaria to a destination located outside Bulgaria, laid down in Article 2(3) of Implementing Decision (EU) 2025/1160. Accordingly, that prohibition should be prolonged until 30 June 2027.

(11) Given the urgency of the epidemiological situation in the Union as regards the spread of sheep pox and goat pox, and the need to prevent that disease from spreading from the affected establishments in Bulgaria to other parts of that Member State or to other Member States, the amendments to be made to Implementing Decision (EU) 2025/1160, by this Decision, should take effect as soon as possible.

(12) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:

*Article 1*

Implementing Decision (EU) 2025/1160 is amended as follows:

(1) in Article 2(3), the date '31 December 2026' is replaced by '30 June 2027';

(2) in Article 3, the first and second paragraphs are deleted;

(3) Annex I is replaced by the text set out in the Annex to this Decision;

(4) Annex II is deleted.

*Article 2*

This Decision is addressed to the Republic of Bulgaria.

Done at Brussels, 13 November 2026.

*For the Commission*
Olivér VÁRHELYI
*Member of the Commission*

*ANNEX*

*'ANNEX I*
