от 5 септември 2022 година

за изменение на Регламент за изпълнение (ЕС) 2015/2378 по отношение на стандартните формуляри и компютризираните формати, които да се използват във връзка с Директива 2011/16/ЕС на Съвета, и по отношение на списъка на статистическите данни, които държавите членки трябва да предоставят за целите на оценката на посочената директива

ЕВРОПЕЙСКАТА КОМИСИЯ,

като взе предвид Договора за функционирането на Европейския съюз,

като взе предвид Директива 2011/16/ЕС на Съвета от 15 февруари 2011 г. относно административното сътрудничество в областта на данъчното облагане и за отмяна на Директива 77/779/ЕИО ([1]), и по-специално член 20, параграф 4 от нея,

като има предвид, че:

(1) Директива 2011/16/ЕС беше изменена с Директива (ЕС) 2021/514 ([2]) с цел да се подобрят разпоредбите, свързани с всички форми на обмен на информация и административно сътрудничество, като се предвиди задължителен автоматичен обмен на информация, предоставяна от операторите на платформи.

(2) Поради това Регламент за изпълнение (ЕС) 2015/2378 на Комисията ([3]) следва да бъде адаптиран към посочените изменения. Автоматичният обмен на информация съгласно член 8ав, параграф 2 от Директива 2011/16/ЕС следва да се извършва в стандартен компютризиран формат.

(3) В съответствие с член 8ав, параграф 4 от Директива 2011/16/ЕС е необходимо също така да се определят практическите условия за регистрацията и идентификацията на някои предоставящи информация оператори на платформи.

(4) В съответствие с член 8ав, параграф 6 от Директива 2011/16/ЕС следва да бъде създаден централен регистър, в който да се вписва информацията, за която се изпраща уведомление съгласно член 8ав, параграф 5 и която се предоставя в съответствие с раздел IV, параграф Е, точки 2 и 4 от приложение V. Този централен регистър следва да бъде предоставен на разположение на компетентните органи на държавите членки. За предоставянето и вписването на тази информация следва да се използва стандартен формуляр.

(5) В член 23, параграф 4 от Директива 2011/16/ЕС се предвижда списък на статистическите данни, които да бъдат предоставени от държавите членки за целите на оценката на тази директива. С оглед на постигането на последователност и правна сигурност началната дата на прилагане на настоящия регламент следва да се уеднакви с началната дата на прилагане, предвидена в член 2, параграф 1, втората алинея от Директива (ЕС) 2021/514.

(6) В съответствие с член 42, параграф 1 от Регламент (ЕС) 2018/1725 на Европейския парламент и на Съвета ([4]) беше проведена консултация с Европейския надзорен орган по защита на данните относно мерките, предвидени в регламента.

(7) Мерките, предвидени в настоящия регламент, са в съответствие със становището на Комитета за административно сътрудничество в областта на данъчното облагане,

PLEASE NOTE that the address country code is outside both of these elements. The use of the fixed form is recommended as a rule to allow easy matching. However, the use of the free form is recommended if the sending state cannot reliably identify and distinguish the different parts of the address. The user may want to use both formats e.g. if besides separating the logical parts of the address he also wants to indicate a suitable breakdown into print-lines by delimiters in the free text form. Platform Operator 1 will also use the AssumingPlatformOperator element (discussed further below) to report to its jurisdiction (jurisdiction 1) identification information on Platform Operator 2, assuming the reporting obligation in the name of Platform Operator 1. Platform Operator 1 will not provide ReportableSeller element.

At the same time, Platform Operator 2 will use the AssumedPlatformOperator element (discussed further below) to report to its jurisdiction of residence (jurisdiction 2) identification information on Platform Operator 1, for which it has assumed reporting obligations, and complete the Platform Operator element for itself.
