# DÉCISION D'EXÉCUTION (UE) 2026/1759 DE LA COMMISSION

**du 14 juillet 2026**

**modifiant la décision d'exécution (UE) 2024/2207 concernant certaines mesures d'urgence relatives à la clavelée et à la variole caprine en Grèce**

*[notifiée sous le numéro C(2026) 5059]*

**(Le texte en langue grecque est le seul faisant foi.)**

**(Texte présentant de l'intérêt pour l'EEE)**

LA COMMISSION EUROPÉENNE,

vu le traité sur le fonctionnement de l'Union européenne,

vu le règlement (UE) 2016/429 du Parlement européen et du Conseil du 9 mars 2016 relatif aux maladies animales transmissibles et modifiant et abrogeant certains actes dans le domaine de la santé animale (ci-après la «législation sur la santé animale») ([1]), et notamment son article 259, paragraphe 1,

considérant ce qui suit:

(1) La clavelée et la variole caprine sont des maladies virales infectieuses qui touchent les ovins et les caprins et peuvent avoir une incidence grave sur la population animale concernée et la rentabilité des élevages, perturbant les mouvements d'envois de ces animaux et des produits qui en sont tirés au sein de l'Union et les exportations vers les pays tiers. En cas d'apparition d'un foyer de clavelée ou de variole caprine chez des ovins ou des caprins, il existe un risque grave de propagation de ces maladies à d'autres établissements détenant de tels animaux.

(2) Le règlement délégué (UE) 2020/687 de la Commission ([2]) complète les règles de lutte contre les maladies répertoriées à l'article 9, paragraphe 1, points a), b) et c), du règlement (UE) 2016/429 et définies comme des maladies des catégories A, B et C dans le règlement d'exécution (UE) 2018/1882 de la Commission ([3]). En particulier, les articles 21 et 22 du règlement délégué (UE) 2020/687 prévoient la mise en place d'une zone réglementée en cas d'apparition d'un foyer d'une maladie de catégorie A, à laquelle appartiennent la clavelée et la variole caprine, et l'application de certaines mesures dans cette zone. L'article 21, paragraphe 1, dudit règlement délégué prévoit que la zone réglementée doit comprendre une zone de protection, une zone de surveillance et, si nécessaire, d'autres zones réglementées situées autour ou à proximité immédiate des zones de protection et de surveillance.

(3) La décision d'exécution (UE) 2024/2207 de la Commission ([4]) a été adoptée à la suite de l'apparition de foyers de clavelée et de variole caprine en Grèce; elle établit certaines mesures d'urgence que cet État membre doit prendre. Plus particulièrement, la décision d'exécution (UE) 2024/2207 prévoit que les zones de protection et de surveillance ainsi que les autres zones réglementées devant être mises en place par cet État membre conformément au règlement délégué (UE) 2020/687 doivent comprendre au moins les zones énumérées dans son annexe. Elle prévoit également que les mesures à appliquer obligatoirement dans ces zones doivent l'être au moins jusqu'aux dates indiquées dans ladite annexe.

([1]) JO L 84 du 31.3.2016, p. 1, ELI: http://data.europa.eu/eli/reg/2016/429/oj.
([2]) Règlement délégué (UE) 2020/687 de la Commission du 17 décembre 2019 complétant le règlement (UE) 2016/429 du Parlement européen et du Conseil en ce qui concerne les règles relatives à la prévention de certaines maladies répertoriées et à la lutte contre celles-ci (JO L 174 du 3.6.2020, p. 64, ELI: http://data.europa.eu/eli/reg_del/2020/687/oj).
([3]) Règlement d'exécution (UE) 2018/1882 de la Commission du 3 décembre 2018 sur l'application de certaines dispositions en matière de prévention et de lutte contre les maladies à des catégories de maladies répertoriées et établissant une liste des espèces et des groupes d'espèces qui présentent un risque considérable du point de vue de la propagation de ces maladies répertoriées (JO L 308 du 4.12.2018, p. 21, ELI: http://data.europa.eu/eli/reg_impl/2018/1882/oj).
([4]) Décision d'exécution (UE) 2024/2207 de la Commission du 29 août 2024 concernant certaines mesures d'urgence relatives à la clavelée et à la variole caprine en Grèce (JO L, 2024/2207, 30.8.2024, ELI: http://data.europa.eu/eli/dec_impl/2024/2207/oj).

(4) Depuis la notification à la Commission des foyers ayant entraîné la dernière modification de la décision d'exécution (UE) 2024/2207 ([5]), la Grèce a notifié à la Commission vingt-quatre nouveaux foyers de clavelée et de variole caprine dans des établissements détenant des caprins et des ovins. Ces foyers, signalés entre le 9 juin et le 10 juillet 2026, concernent les unités régionales d'Étolie-Acarnanie, d'Arcadie, d'Élide, de Kozani, de Messénie, de Piérie, de Préveza, de Rhodope et de Serrès. Un de ces nouveaux foyers est situé en dehors des zones réglementées déjà établies à la suite de l'apparition des foyers antérieurs, dans l'unité régionale de Messénie, où la maladie n'avait pas encore été signalée auparavant.

(5) Par conséquent, il convient d'adapter les zones de protection, de surveillance et les autres zones réglementées recensées pour la Grèce à l'annexe de la décision d'exécution (UE) 2024/2207, ainsi que la durée des mesures qui y sont applicables, afin de tenir compte de ces nouveaux foyers. Il est dès lors nécessaire de modifier la liste des zones réglementées et la durée des mesures à y appliquer figurant à l'annexe de ladite décision d'exécution.

(6) La taille des zones de protection, de surveillance et des autres zones réglementées ainsi que la durée des mesures à appliquer dans ces zones sont fondées sur les critères énoncés à l'article 64, paragraphe 1, du règlement (UE) 2016/429 et sur les règles établies dans le règlement délégué (UE) 2020/687. Les critères appliqués pour déterminer la taille et le nombre des zones de protection et de surveillance et des autres zones réglementées, ainsi que la durée des mesures à appliquer dans ces zones, portent non seulement sur la situation épidémiologique en ce qui concerne la clavelée et la variole caprine dans les zones touchées par cette maladie, mais également sur la situation épidémiologique globale de cette maladie sur l'ensemble du territoire de l'État membre touché, ainsi que sur le niveau de risque de propagation. En outre, la durée des mesures prévues par la présente décision a été fixée en conformité avec les normes internationales énoncées dans le Code sanitaire pour les animaux terrestres de l'Organisation mondiale de la santé animale (OMSA) ([6]).

(7) Compte tenu de l'urgence de la situation épidémiologique dans l'Union au regard de la propagation de la clavelée et de la variole caprine et de la nécessité de prévenir la propagation de la maladie depuis les établissements touchés en Grèce jusqu'à d'autres parties de cet État membre ou jusqu'à un autre État membre, il convient que les mesures prévues par la présente décision d'exécution s'appliquent dès que possible.

(8) Les mesures prévues par la présente décision sont conformes à l'avis du comité permanent des végétaux, des animaux, des denrées alimentaires et des aliments pour animaux,

A ADOPTÉ LA PRÉSENTE DÉCISION:

*Article premier*

L'annexe de la décision d'exécution (UE) 2024/2207 est remplacée par le texte figurant à l'annexe de la présente décision.

*Article 2*

La République hellénique est destinataire de la présente décision.

Fait à Bruxelles, le 14 juillet 2026.

*Par la Commission*
Olivér VÁRHELYI
*Membre de la Commission*
