COMMISSION IMPLEMENTING DECISION (EU) 2024/3087

of 4 December 2024

amending Implementing Decision (EU) 2024/2207 concerning certain emergency measures relating to sheep pox and goat pox in Greece

(notified under document C(2024) 8677)

(Only the Greek text is authentic)

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2016/429 of the European Parliament and of the Council of 9 March 2016 on transmissible animal diseases and amending and repealing certain acts in the area of animal health ('Animal Health Law') ([1]), and in particular Article 259(1), point (c), thereof,

Whereas:

(1) Sheep pox and goat pox is an infectious viral disease affecting caprine and ovine animals and it can have a severe impact on the concerned animal population and the profitability of farming causing disturbance to movements of consignments of those animals and products thereof within the Union and exports to third countries.

(2) In the event of an outbreak of sheep pox and goat pox in caprine or ovine animals, there is a serious risk of the spread of that disease to other establishments of caprine or ovine animals.

(3) Commission Delegated Regulation (EU) 2020/687 ([2]) supplements the rules for the control of the listed diseases referred to in Article 9(1), points (a), (b) and (c), of Regulation (EU) 2016/429, and defined as category A, B and C diseases in Commission Implementing Regulation (EU) 2018/1882 ([3]). In particular, Articles 21 and 22 of Delegated Regulation (EU) 2020/687 provide for the establishment of a restricted zone in the event of an outbreak of a category A disease, including sheep pox and goat pox, and for certain measures to be applied therein. In addition, Article 21(1) of that Delegated Regulation provides that the restricted zone is to comprise a protection zone, a surveillance zone, and, if necessary, further restricted zones around or adjacent to the protection and surveillance zones.

(4) Commission Implementing Decision (EU) 2024/2207 ([4]) was adopted on the basis of Regulation (EU) 2016/429 and it lays down certain emergency measures relating to sheep pox and goat pox in Greece. More particularly, Implementing Decision (EU) 2024/2207 provides that the protection, surveillance and further restricted zones to be established by that Member State, in accordance with Delegated Regulation (EU) 2020/687, following outbreaks of that disease are to comprise at least the areas listed in the Annex to that Implementing Decision.

([1]) OJ L 84, 31.3.2016, p. 1, ELI: http://data.europa.eu/eli/reg/2016/429/oj.

([2]) Commission Delegated Regulation (EU) 2020/687 of 17 December 2019 supplementing Regulation (EU) 2016/429 of the European Parliament and the Council, as regards rules for the prevention and control of certain listed diseases (OJ L 174, 3.6.2020, p. 64, ELI: http://data.europa.eu/eli/reg_del/2020/687/oj).

([3]) Commission Implementing Regulation (EU) 2018/1882 of 3 December 2018 on the application of certain disease prevention and control rules to categories of listed diseases and establishing a list of species and groups of species posing a considerable risk for the spread of those listed diseases (OJ L 308, 4.12.2018, p. 21, ELI: http://data.europa.eu/eli/reg_impl/2018/1882/oj).

([4]) Commission Implementing Decision (EU) 2024/2207 of 29 August 2024 concerning certain emergency measures relating to sheep pox and goat pox in Greece (OJ L, 2024/2207, 30.8.2024, ELI: http://data.europa.eu/eli/dec_impl/2024/2207/oj).

(5) After the adoption of Implementing Decision (EU) 2024/2207, Greece notified the Commission of additional outbreaks of sheep pox and goat pox in establishments where ovine and caprine animals were kept. As a result, the Annex to that Implementing Decision was duly amended several times to take account of those additional outbreaks. Implementing Decision (EU) 2024/2207 was last amended by Commission Implementing Decision (EU) 2024/2937 ([5]).

(6) Since the date of adoption of Implementing Decision (EU) 2024/2937, Greece has notified the Commission of 27 new outbreaks of sheep pox and goat pox in establishments where ovine and caprine animals were kept, in the regional units of Xanthi, Rhodopi, Phocis, Lemnos, Larisa, Kavala, Evros and Euboea. Two of those new outbreaks are located outside the limits of the perimeters of protection, surveillance and further restricted zones that were already established as a result of previous outbreaks, and are in areas where the disease has not been previously reported, including in the regional units of Euboea and Lemnos.

(7) Therefore, the areas listed as protection, surveillance and further restricted zones for Greece in the Annex to Implementing Decision (EU) 2024/2207 should be further adjusted in order to prevent the further spread of the disease in Greece and to the rest of the Union, and the duration of the measures to be applied therein should be adjusted. Accordingly, it is necessary to amend the list of restricted zones and the duration of the measures to be applied therein set out in the Annex to that Implementing Decision, and also delimitate additional protection, surveillance and further restricted zones in relation to the outbreaks in the regional units of Euboea and Lemnos.

(8) The size of the protection, surveillance and further restricted zones and the duration of the measures to apply there should be based on the criteria set out in Article 64(1) of Regulation (EU) 2016/429 and the rules laid down in Delegated Regulation (EU) 2020/687, including the epidemiological situation as regards sheep pox and goat pox in the areas affected by that disease and the overall epidemiological situation of sheep pox and goat pox in the Member State concerned by that disease as well as the level of risk for the further spread of the disease. The duration of the measures should also take into account the international standards of the Terrestrial Animal Health Code of the World Organisation for Animal Health (WOAH). In the current epidemiological situation, there is a very high risk of further spread of the disease, in particular due to the fact that, according to the information provided by Greece, in one week a total number of 27 new outbreaks of sheep pox and goat pox have occurred, while outbreaks have occurred for the first time in the regional unit of Lemnos, suggesting that the disease continues to persist and spread over long distances, in spite of the measures already in place.

(9) In addition, in view of the occurrence of numerous new outbreaks of sheep pox and goat pox in Greece during the past four weeks, over long distances, it is necessary to prolong the prohibition on the movement of sheep and goats from the entire territory of Greece, to a destination located outside Greece, at least until 15 January 2025 in order to avoid the spread of the disease to the rest of the Union and unjustified trade barriers.

(10) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS DECISION:

Article 1

Amendments to Implementing Decision (EU) 2024/2207

Implementing Decision (EU) 2024/2207 is amended as follows:

(1) in Article 3(2), the date '30 November 2024' is replaced by '15 January 2025';

(2) the Annex is replaced by the text set out in the Annex to this Decision.

([5]) Commission Implementing Decision (EU) 2024/2937 of 21 November 2024 amending Implementing Decision (EU) 2024/2207 concerning certain emergency measures relating to sheep pox and goat pox in Greece (OJ L, 2024/2937, 28.11.2024, ELI: http://data.europa.eu/eli/dec_impl/2024/2937/oj).

Article 2

Addressee

This Decision is addressed to the Hellenic Republic.

Done at Brussels, 4 December 2024.

For the Commission
Olivér VÁRHELYI
Member of the Commission

ANNEX

A. **Protection and surveillance zones established around the confirmed outbreaks**
