(Acts whose publication is obligatory)

COUNCIL REGULATION (EEC) No 1/85

of 19 December 1984

fixing, for certain fish stocks and groups of fish stocks, provisional total allowable catches for 1985 and certain conditions under which they may be fished

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 170/83 of 25 January 1983 establishing a Community system for the conservation and management of fishery resources (1), and in particular Article 11 thereof,

Having regard to the proposal from the Commission,

Whereas under the terms of Article 2 of Regulation (EEC) No 170/83 it is incumbent upon the Council to formulate, in the light of the available scientific advice and, in particular, of the report prepared by the Scientific and Technical Committee for Fisheries, the conservation measures necessary to achieve the aims set out in Article 1 of the same Regulation;

Whereas under the terms of Article 3 of Regulation (EEC) No 170/83 it is incumbent upon the Council to establish the total allowable catches by stock or group of stocks, the share available for the Community and also the specific conditions under which the catches must be made; whereas, under the terms of Article 4 of the same Regulation, the share available for the Community is allocated between the Member States;

Whereas, in order to ensure the protection of fishing grounds and fish stocks and the balanced exploitation of the resources of the sea, in the interests of both fishermen and consumers, there should be fixed, each year for the different species of which the catches must be restricted, a total allowable catch (TAC) per stock or group of stocks and the share of these catches available to the Community, taking into account its commitments to third countries;

Whereas, in order to ensure effective management of these TACs, the specific conditions under which fishing operations occur should be established;

Whereas, in order to ensure effective management, the TACs available for the Community in 1985 should be distributed among the Member States in a manner which assures relative stability of fishing activities;

Whereas, in conformity with the procedure foreseen in Article 2 of the fisheries agreement between the European Economic Community and the Kingdom of Norway (2), Article 2 of the fisheries agreement between the European Economic Community and the Kingdom of Sweden (3), Article 2 of the fisheries agreement between the European Economic Community and the Government of Denmark and the Local Government of the Faroe Islands (4) and Article 3 of the fisheries agreement between the European Economic Community and the Government of Spain (5), the parties have consulted on their reciprocal fishing rights for 1985;

Whereas these bilateral consultations have been successfully concluded and whereas, as a result, it is possible to fix the TACs, the Community shares and the quotas for certain joint and autonomous stocks, of which part is allocated to Norway, Sweden, the Faroe Islands, or to Spain;

Whereas trilateral consultations with Norway and Sweden concerning reciprocal fishing rights in the Skagerrak and the Kattegat have not yet been concluded

(1) OJ No L 24, 27. 1. 1983, p. 1.

(2) OJ No L 226, 29. 8. 1980, p. 48.
(3) OJ No L 226, 29. 8. 1980, p. 1.
(4) OJ No L 226, 29. 8. 1980, p. 11.
(5) OJ No L 322, 28. 11. 1980, p. 4.

and whereas it is as a result necessary to ensure the continuation of fishing activities by autonomous management of the stocks concerned;

Whereas, it has not been possible to reach agreement with Norway on the stocks of North Sea herring and whereas it is therefore necessary to ensure the continuation of fishing activities by autonomous management of these stocks;

Whereas, in the case of certain stocks fished mainly for reduction to meal and oil, it does not appear necessary to make quota allocations;

Whereas, in view of the change in the status of Greenland with respect to the Community, Council Regulation (EEC) No 2/84 [1] allocates the catch quotas of the Community for 1985 in the waters of Greenland;

Whereas the provisional TACs for 1985, and the conditions under which they may be taken, are to come into effect as from 1 January 1985; whereas the very short period of time now remaining before they come into effect means that an initial period of application, limited in time, will have to be provided for in order to enable the Council to confirm, before the end of that period, the decisions taken,

HAS ADOPTED THIS REGULATION:

Article 1

1. This Regulation fixes for 1985, for certain fish stocks and groups of fish stocks, provisional total allowable catches TACs per stock or group of stocks, the provisional share of these catches available to the Community, the allocation of that share among Member States and the specific conditions under which these stocks may be fished [2].

2. For the purposes of this Regulation, the Skagerrak is bounded on the west by a line drawn from the Hanstholm lighthouse to the Lindesnes lighthouse and on the south by a line drawn from the Skagen lighthouse to the Tistlarna lighthouse and from this point to the nearest point on the Swedish coast.

For the purposes of this Regulation, the Kattegat is bounded on the north by a line drawn from the Skagen lighthouse to the Tistlarna lighthouse and from this point to the nearest point on the Swedish coast and on the south by a line drawn from Hasenøre to Gnibens Spids, from Korshage to Spodsbjerg and from Gilberg Hoved to Kullen.

Article 2

TACs for stocks or groups of stocks to which Community rules apply and the share of these catches available to the Community are hereby fixed for 1985 in Annex I.

Article 3

The allocation among the Member States of the share available to the Community of the TACs mentioned in Article 2 is hereby fixed in Annex II.

Article 4

As regards the herring stock of the North Sea and of the eastern English Channel, transfers of up to 25 % of the quotas may be effected from ICES divisions IV c and VII d to ICES division IV b.

However, such transfers must be notified in advance to the Commission.

Article 5

1. It shall be prohibited to retain on board or to land catches from stocks for which TACs or quotas are fixed unless:

(i) the catches have been taken by vessels of a Member State having a quota and that quota is not exhausted, or

(ii) the share of the TAC available to the Community (Community share) has not been allocated by quota among Member States and the Community share has not been exhausted, or

(iii) for all species other than herring and mackerel, they are mixed with other species and have been taken in accordance with Articles 8 and 9 of Regulation (EEC) No 171/83 [3], as last amended by Regulation (EEC) No 3625/84 [4] and with Article 1 of Regulation (EEC) No 2665/84 [5] and are not sorted either on board or on landing, or

---

(1) See page 36 of this Official Journal.

(2) The sub-areas, divisions or subdivisions of NAFO referred to in this Regulation are described in Annex III to Council Regulation (EEC) No 3179/78 of 28 December 1978 concerning the conclusion by the European Economic Community of the Convention on Future Multilateral Cooperation in the Northwest Atlantic Fisheries (OJ No L 378, 30. 12. 1978, p. 1), as last amended by Regulation (EEC) No 654/81 (OJ No L 69, 14. 3. 1981, p. 1).
The definition of the ICES areas referred to in this Regulation is given in a Commission communication (OJ No C 140, 3. 6. 1982, p. 3).

(3) OJ No L 24, 27. 1. 1983, p. 14.

(4) OJ No L 335, 22. 12. 1984, p. 3.

(5) OJ No L 253, 21. 9. 1984, p. 4.

(iv) for herring caught in any area except the Skagerrak, the Kattegat and the Baltic Sea (ICES divisions III b, c, d), they are within the limits of paragraph 2, or

(v) for mackerel, they are mixed with horse-mackerel or pilchard and the mackerel does not exceed 10 % of the total weight of mackerel, horse-mackerel and pilchard on board and the catches are not sorted.

All landings shall count against the quota, or, if the Community share has not been allocated between Member States by quotas, against the Community share, except for catches made under the provisions of (iii), (iv) and (v) of this paragraph.

2. In areas other than the Skagerrak, the Kattegat and the Baltic Sea (ICES divisions III b, c, d) it shall be prohibited to retain on board herring mixed with other species unless such catches are not sorted, and:

(a) if mixed with sprat only, the herring does not exceed 10 % by weight of the total weight of herring and sprat combined, or

(b) if mixed with other species, whether or not including sprat, the herring does not exceed 5 % by weight of the total weight of the herring and other species combined.

3. The determination of the percentage of by-catches and their disposal shall be made in accordance with Article 10 of Regulation (EEC) No 171/83.

Article 6

1. Fishing for herring shall be prohibited

— in the Skagerrak, throughout the year, except for 14 weeks during the period 3 June to 28 September and six weeks during the period 30 September to 31 December,

— in the Kattegat during five weeks in the period 29 April to 21 September.

These provisions shall not apply to fishing within two nautical miles on the baselines, within the same level as previous years, by vessels not exceeding 90 feet and using other types of gear other than trawl.

The detailed rules for the application of this paragraph shall be determined in accordance with the procedure laid down in Article 14 of Regulation (EEC) No 170/83 before 1 April 1985.

2. Fishing for herring shall be prohibited from 1 July to 31 October 1985 within the area bounded by the following coordinates:

— the west coast of Denmark at 55°30′ N,

— latitude 55°30′ N longitude 07°00′ E,

— latitude 57°00′ N longitude 07°00′ E,

— the west coast of Denmark at 57°00′ N.

3. Fishing for herring shall be prohibited in the zone extending from 6 to 12 miles off the east coast of the United Kingdom as measured from the baselines between latitudes 54°10′ N and 54°45′ N for the period 15 August to 30 September and between latitudes 55°30′ N and 55°45′ N for the period 15 August to 15 September.

4. Fishing for herring shall be prohibited throughout 1985 in those waters between latitudes 53°00′ N and 55°00′ N which are situated between the eastern coasts of Ireland and Northern Ireland and a line drawn 12 miles from the baselines.

5. Fishing for herring shall be prohibited throughout the year in the Irish Sea (ICES division VII a) in the maritime area between the west coasts of Scotland, England and Wales and a line drawn 12 miles from the baselines of these coasts bounded to the south by latitude 53°20′ N and to the north-west by a line drawn between the Mull of Galloway (Scotland) and the Point of Ayre (Isle of Man).

6. Fishing for herring shall be prohibited from 21 September to 16 November 1985 in the part of the Irish Sea (ICES division VII a) north of latitude 53°30′ N, except in Logan Bay (defined as being the waters east of a line going from the Mull of Logan, situated at latitude 54°44′ N and longitude 4°59′ W, to Laggantalluch Head, situated at latitude 54°41′ N and longitude 4°58′ W), where fishing for herring shall be prohibited throughout 1985.

7. Notwithstanding paragraphs 4 and 6, vessels with a length not exceeding 40 feet based in ports situated on the east coast of Ireland and Northern Ireland between latitudes 53°00′ N and 55°00′ N may fish for herring in the prohibited area described in paragraph 4. The only method of fishing authorized shall be drift netting with nets of a minimum mesh size of 54 mm.

8. The areas described in paragraphs 5 and 6 may be altered in accordance with the procedure laid down in Article 14 of Regulation (EEC) No 170/83.

Article 7

1. Fishing for sprat with trawls of mesh size less than 32 mm shall be prohibited in the Skagerrak and the Kattegat:

— for all vessels during the period 1 January to 30 June,

— for vessels of overall length of 80 feet (24,38 m) or above during the period 1 July to 30 September,

— for vessels with an overall length of less than 80 feet (24,38 m) during four weeks in the period 1 July to 29 September.

The detailed rules for the application of this paragraph shall be determined in accordance with the procedure laid down in Article 14 of Regulation (EEC) No 170/83 before 1 April 1985.

2. Fishing for sprat shall be prohibited:

(a) from 1 July to 31 October 1985 within the area bounded by the following coordinates:

— the west coast of Denmark at 55°30′ N,

— latitude 55°30′ N longitude 07°00′ E,

— latitude 57°00′ N longitude 07°00′ E,

— the west coast of Denmark at 57°00′ N;

(b) in ICES statistical rectangle 39E8 from 1 January to 31 March 1985 and from 1 October to 31 December 1985. For the purposes of this Regulation, this ICES rectangle is bounded by a line running due east from the east coast of England along latitude 55°00′ N to longitude 1°00′ W, due north to latitude 55°30′ N and due west to the English coast;

(c) in the inner waters of the Moray Firth west of longitude 3°30′ W and in the inner waters of the Firth of Forth west of longitude 3°00′ W from 1 January to 31 March 1985 and from 1 October to 31 December 1985.

Article 8

Trawling and purse seining for mackerel, sprat and herring shall be prohibited in the Skagerrak from Saturday midnight to Sunday midnight and in the Kattegat from Friday midnight to Sunday midnight.

Article 9

This Regulation shall enter into force on 1 January 1985.

It shall apply until 20 January 1985, subject to the Council's taking a decision before that date.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 19 December 1984.

For the Council

The President

P. O'TOOLE

Footnotes:

(1) Plus 2 000 tonnes allocated to Denmark outside the Community share of the TAC.

(2) Excluding an estimated 5 000 tonnes of industrial by-catch.

(3) Excluding an estimated 20 000 tonnes of industrial by-catch.

(4) Includes all by-catches of all other species which are caught when fishing for sprat and which are landed unsorted.

(5) Fishing for prawn is prohibited in waters less than 30 metres deep.

(6) Subject to revision following scientific reassessment.

(7) Blackwater stock: reference is to the herring stock in the maritime region of the Thames Estuary between Felixstowe and North Foreland within 6 miles from the United Kingdom baselines.

(8) Reference is to the herring stock in ICES division VI a, north of 56°00′ N and in that part of VI a which is situated east of 07°00′ W and north of 55°00′ N, excluding the Clyde as defined in footnote 10 of Annex I.

(9) Reference is to the herring stock in ICES division VI a, south of 56°00′ N and west of 07°00′ W.

(10) Clyde stock: reference is to the herring stock in the maritime area situated to the north-east of a line drawn between Mull of Kintyre and Corsewall Point.

(11) ICES VII a is reduced by the area added to the Celtic Sea bounded:
— to the north by latitude 52°30′ N,
— to the south by latitude 52°00′ N,
— to the west by the coast of Ireland.
— to the east by the coast of the United Kingdom.

(12) Mourne stock: reference is to the herring stock within 12 miles of the east coast of Ireland and of Northern Ireland between 53°00′ N and 55°00′ N.

(13) Man stock: reference is to the herring stock in the Irish Sea (ICES division VII a), excluding the zone referred to in footnote 12 of Annex I.

(14) Increased by zone bounded:
— to the north by latitude 52°30′ N,
— to the south by latitude 52°00′ N,
— to the west by the coast of Ireland,
— to the east by the coast of the United Kingdom.

(15) Without prejudice to the Community rights and subject to revision in the light of scientific advice.

(*) Precautionary TAC.
