COMMISSION REGULATION (EC) No 1118/94

of 16 May 1994

fixing for the 1994 marketing year the reference prices for cherries

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EEC) No 1035/72 of 18 May 1972 on the common organization of the market in fruit and vegetables [1], as last amended by Regulation (EC) No 3669/93 [2], and in particular Article 27 (1) thereof,

Having regard to Council Regulation (EEC) No 3813/92 of 28 December 1992 on the unit of account and the conversion rates to be applied for the purposes of the common agricultural policy [3], as amended by Regulation (EC) No 3528/93 [4], and in particular Article 9 (1) thereof,

Having regard to Commission Regulation (EEC) No 3824/92 of 28 December 1992 laying down the prices and amounts fixed in ecus to be amended as a result of the monetary realignments [5], as last amended by Regulation (EEC) No 1663/93 [6], and in particular Article 2 thereof,

Whereas, pursuant to Article 23 (1) of Regulation (EEC) No 1035/72, reference prices valid for the whole Community are to be fixed at the beginning of the marketing year;

Whereas cherries are produced in such quantities in the Community that reference prices should be fixed for them;

Whereas cherries harvested during a given crop year are marketed from April to September; Whereas the quantities harvested in April, during the first 20 days of May and from 11 August to 30 September are so small that there is no need to fix reference prices for these periods; whereas reference prices should be fixed only for the period 21 May to 10 August inclusive;

Whereas Article 23 (2) (b) of Regulation (EEC) No 1035/72 stipulates that reference prices are to be fixed at the same level as for the proceding marketing year, adjusted, after deducting the standard cost of transporting Community products between production areas and Community consumption centres in the preceding year, by:

— the increase in production costs for fruit and vegetables, less productivity growth, and

— the standard rate of transport costs in the current marketing year;

Whereas the resulting figure may nevertheless not exceed the arithmetic mean of producer prices in each Member State plus transport costs for the current year, after this amount has been increased by the rise in production costs less productivity growth; whereas the reference price may, however, not be lower than in the preceding marketing year;

Whereas to take seasonal variations into account, the year should be divided into several periods and a reference price fixed for each of these periods;

Whereas producer prices are to correspond to the average of the prices recorded on the representative market or markets situated in the production areas where prices are lowest, during the three years prior to the date on which the reference price is fixed, for a home-grown product with defined commercial characteries, being a product or variety representing a substantial proportion of the production marketed over the year or over part thereof and satisfying specified requirements as regards market preparation; whereas, when the average of prices recorded on each representative market is being calculated, prices which could be considered excessively high or excessively low in relation to normal price fluctuations on that market are to be disregarded;

Whereas Regulation (EEC) No 3824/92 establishes a list of prices and amounts for the fruit and vegetables sector which are to be divided by a coefficient of 1,000426 fixing by Commission Regulation (EEC) No 537/93 [7], as amended by Regulation (EEC) No 1331/93 [8], whereas Article 2 of Regulation (EEC) No 3824/92 lays down that the resulting reduction in the prices and amounts for each sector concerned shall be specified and the level of such reduced prices fixed; whereas, however, this adjustment

may not result in a reference price level below that of the proceding marketing year, in accordance with Article 23 (2) of Regulation (EEC) No 1035/72;

Whereas the measures provided for in this Regulation are in accordance with the opinion of the Management Committee for Fruit and Vegetables,

HAS ADOPTED THIS REGULATION:

Article 1

For the 1994 marketing year, the reference prices for cherries falling within CN code 0809 20, expressed in ecus per 100 kilograms net, of packed products of class I, of all sizes, shall be as follows:

May (21 to 31):	140,71
June:	125,70
July:	115,49
August (1 to 10):	88,58.

Article 2

This Regulation shall enter into force on 21 May 1994.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 16 May 1994.

For the Commission

René STEICHEN

Member of the Commission
