TACs APPLICABLE TO UNION FISHING VESSELS

IN AREAS WHERE TACs EXIST BY SPECIES AND BY AREA

The tables in the Annexes set out the TACs and quotas (in tonnes live weight, except where otherwise specified) by stock, and, where appropriate, the conditions functionally linked thereto.

All fishing opportunities set out in the Annexes shall be subject to the rules set out in Regulation (EC) No 1224/2009, and in particular Articles 33 and 34 thereof.

The references to fishing zones in the Annexes are references to ICES zones, unless otherwise specified. Within each area, fish stocks are referred to according to the alphabetical order of the scientific names of the species. Only scientific names identify species for regulatory purposes.

For the purposes of this Regulation, a comparative table of scientific names and common names of the species listed in the annexes to this Regulation is provided below, for ease of reference. Annexes IA to IL are part of Annex I.

Specimens caught by other vessels shall not be harmed and shall be promptly released. Each Party shall independently determine how to allocate its quota to the vessels participating in its monitoring programmes. Participating vessels will be required to collect and share data on: landings and discards, and preferably biological characteristic data of the catch (length, weight and sex).

[(2)] The by-catch allowance set out above is not allocated between SIOFA Parties, hence the Union's share is undetermined.

[(3)] Exclusively for by-catches. No directed fisheries are permitted under this by-catch allowance. Once the by-catch allowance is exhausted, the SIOFA Secretariat will notify SIOFA Contracting Parties. On receiving that notification that the by-catch allowance has been exhausted, Member States shall ensure that their vessels fishing in SIOFA subarea 2 do not retain any Portuguese dogfish for the remainder of the year. That retention prohibition shall apply to any lines in the water following the notification of the SIOFA Secretariat that the by-catch allowance has been exhausted. Vessels with lines in the water at the time that the notification is received may retain Portuguese dogfish that are dead at time of haul and shall release all live Portuguese dogfish on such lines.
