KOMMISSIONENS DIREKTIV

av den 30 januari 1979

om anpassning till tekniska framsteg för andra gången av rådets direktiv 67/548/EEG om tillnärmning av lagar och andra författningar om klassificering, förpackning och märkning av farliga ämnen

(79/370/EEG)

EUROPEISKA GEMENSKAPERNAS KOMMISSION HAR ANTAGIT DETTA DIREKTIV

med beaktande av Fördraget om upprättandet av Europeiska ekonomiska gemenskapen,

med beaktande av rådets direktiv 67/548/EEG av den 27 juni 1967 om tillnärmning av lagar och andra författningar om klassificering, förpackning och märkning av farliga ämnen([1]), senast ändrat genom kommissionens direktiv 76/907/EEG([2]), särskilt artikel 8 a, 8b och 8c i detta, och

med beaktande av följande:

Bilaga 1 till direktiv 67/548/EEG innehåller en förteckning över farliga ämnen samt uppgifter om den märkning som skall ske av varje ämne (farosymbol, typen av fara och skyddsanvisning).

En granskning av förteckningen över farliga ämnen har visat att den behöver anpassas mot bakgrund av de senaste vetenskapliga och tekniska resultaten, vilket närmare bestämt betyder att klassificering och märkning av vissa ämnen måste ändras, nya ämnen måste tas upp och ytterligare förklarande anmärkningar måste införas.

Bilagorna 3 och 4 till direktiv 67/548/EEG innehåller standardfraser för särskilda risker (R-fraser) och skyddsanvisningar (S-fraser). Vissa särskilda risker har nu identifierats klarare och vissa skyddsanvisningar bör förtydligas. Bilagorna 3 och 4 bör därför ändras.

De åtgärder som föreskrivs i detta direktiv är förenliga med yttrandet från Kommittén för anpassning till teknisk utveckling av direktiven om avskaffande av tekniska handelshinder för farliga ämnen och preparat.

HÄRIGENOM FÖRESKRIVS FÖLJANDE.
