Prior notification of a concentration

(Case M.9982 — Ford/GFT)

Candidate case for simplified procedure

(Text with EEA relevance)

(2020/C 424/08)

1. On 30 November 2020, the Commission received notification of a proposed concentration pursuant to Article 4 of Council Regulation (EC) No 139/2004 ([1]).

This notification concerns the following undertakings:

— Ford-Werke GmbH ('FWG', Germany), controlled by Ford Motor Company ('FMC', the United States of America (USA)), belonging to the Ford Group (the USA),

— GETRAG FORD Transmissions GmbH ('GFT', Germany), jointly controlled by FMC and Magna International Inc. ('MAGNA').

FWG acquires within the meaning of Article 3(1)(b) of the Merger Regulation sole control of the whole of GFT.

The concentration is accomplished by way of purchase of shares.

2. The business activities of the undertakings concerned are:

— for FMC (Ford Group): design, manufacture, marketing and servicing a full line of Ford cars, trucks, sport utility vehicles ('SUVs'), electrified vehicles and Lincoln luxury vehicles, financial services through Ford Motor Credit Company and also developing electrification, autonomous vehicles and mobility solutions,

— for GFT: development, manufacture and sale of transmissions for light vehicles, including two production plants in Germany and the UK.

3. On preliminary examination, the Commission finds that the notified transaction could fall within the scope of the Merger Regulation. However, the final decision on this point is reserved.

Pursuant to the Commission Notice on a simplified procedure for treatment of certain concentrations under the Council Regulation (EC) No 139/2004 ([2]) it should be noted that this case is a candidate for treatment under the procedure set out in the Notice.

4. The Commission invites interested third parties to submit their possible observations on the proposed operation to the Commission.

Observations must reach the Commission not later than 10 days following the date of this publication. The following reference should always be specified:
